THE
PRAIRIE FARMER
UNTIL JANUARY 1ST., 1859.

A Very Liberal Proposition.

MOST FARMERS LIKE TO HAVE THEIR subscriptions end on the 1st of January. There are a great many men who intend to take the Prairie Farmer, but are waiting until the new year, so as to have their file run out with the volume. We would like to have them on our books during the balance of 1858, and make them the following very liberal proposition:

We will send the Prairie Farmer from now until New Year's Day on these terms:

SIX COPIES FOR - - - - - $3.00
TEN COPIES FOR - - - - - 5.00

A single copy will be sent for sixty cents. These prices are made to suit the hard times.

Let the friends of the Prairie Farmer put their shoulders to the wheel. A few hours' effort on the part of each would send in five thousand names between now and the first of October. Those who once commence taking the paper will not soon discontinue it. At this time it is of the utmost importance that the circulation of the farmers' old organ be increased.

A first-rate, carefully prepared market report is given each week, which alone is worth the subscription price.

The Bombardment of Jiddah a Blunder.

The bombardment of Jiddah by Capt Pullen of the British steamer Cyclops, seems to have excited as much surprise in England and France as in this country. The London Times and other English journals justly regard it as a blunder, to say the least; but whether it is to be charged to sleepiness or confusion in the Circumlocution Office, or to a misapprehension of the nature of his orders by Capt. Pullen, does not yet appear—probably the latter. Immediately after the massacre, both England and France demanded redress of the Turkish Government, and redress was promised without a moment's delay, accompanied by expressions of deep regret on the part of the Sultan. Ishmael Pasha was at once commissioned to proceed to Jiddah and punish the murderers; and it was while he was on his way thither that the bombardment occurred. Capt. Pullen claims that he had orders to perform that act of justice, but he could scarcely have been been ignorant of the arrangement with the Sultan, and even if he were, his bombardment of an insignificant town, incapable of any effective military resistance, and in the absence of the Governor or any responsible official personage, places him in the same category with our own Capt. Hollins, who so griliantly bombarded and demolished Greytown.

As the case now stands, the British Government, instead of occupying the clear ground of demanding reparation for outrages committed upon its citizens, must explain to both France and Turkey how it happened that a well understood arrangement, concurred in by all three of the governments, should have been so rashly anticipated by Capt. Pullen.

Advices brought by the Asia state that the French Government was apprehensive that the assault upon Jiddah would incite to still further outrages upon the Christians in Turkey. This is possible; yet Mussulman hate had reached so high a pitch of inflammation before, that nothing but the dread of punishment or retaliation held it in check, so that the affair at Jiddah will not seriously effect the question of providing adequate protection to the Christian population in the Turkish dominions. The Sultan, however good his intentions are, is incapable of affording such protection at any great distance from his capital; consequently England, France, and other Christian nations, our own included, will have to adopt measures for the protection of their respective subjects or citizens. The outrages committed upon American Missionaries in the neighborhood of Jerusalem last Spring are still unavenged. A portion of the miscreants concerned in their perpetration were arrested after a lapse of several months, but it is doubtful whether one of them will ever be punished.

The Rescued Negroes—The U. S. Marshal Apprehensive that their Removal will be Opposed.

The U. S. Marshal at Charleston has written to the President expressing the apprehension that a party in that city will interfere to prevent the due execution of the law of 1819. The President, says the *Star*, has transmitted a reply, in which he points out to the Marshal that his duty in the case is imperative, and that the law must be executed.

That opposition to the execution of the law was threatened by a few hot-heads, is certain; but it is not probable that they had any serious intention of resorting to nullification to effect their object. The Attorney-General of South Carolina has, upon solicitation, given his opinion that the captured slaves are exclusively under the control of the United States, and that view of the case is no doubt in accordance with the conviction of a large majority of the people.

FOREIGN INTERVENTION IN THE POLITICS OF ILLINOIS.

Douglas Sends an Embassy to the New York Tammany Society.

THE CLUB AGREES TO FURNISH $50,000.

We are in possession of information which we have every reason to regard as entirely authentic, to the effect that Douglas has appealed to the Tammany Society of New York for material aid. The Tammany Society, as is well known, is under the control of the most desperate adventurers and accomplished political intriguants which the country affords. Most of them have been for years in the interests of Douglas, and it is said that even some of the number who profess to be warm friends of the President are willing to do a little job, now and then, on the sly for Douglas. Some years ago, Douglas was elected an honorary member of the Society, and holds at this day a commission as Sachem of the order. It was under the auspices of this Society that George Saunders, himself a member of it, in 1852, converted the Democratic Review into an organ of Douglas, in which capacity it made such a vigorous onslaught upon Gen Cass, Gov. Marcy and Mr. Buchanan as to lay them effectually upon the shelf, so far as the sweepstakes of 1852 were concerned. It will be seen, therefore, that there are many points of sympathy between Mr. Douglas and the Tammany leaders.

The present desperate condition of Mr. Douglas' political fortunes has very naturally led him to turn his thoughts towards his friends and boon companions of Tammany Hall According to our information he dispatched an embassy to the leaders, some two or three weeks ago, to lay before them the straits to which he was reduced, the almost certain prospect of his defeat, and to implore them to help an old friend and one of the chiefs of their Society in his hour of greatest need. Our city readers will remember that it was given out about that time that certain men had been sent by Douglas to Washington to make terms for him with the President. Some of the number were doubtless sent to Washington, and for the purpose stated; but the most conspicuous man of the crowd was sent to the Tammany Sachems.

The facts having been presented, it was resolved, after long and serious deliberation, to make a desperate effort to elect Douglas, and the ambassador returned home fetching with him the promise of $50,000 to be used in the canvass, *and other assistance*. What that "other assistance" is to be, the reader must judge for himself, and we leave to his conjecture, also, the manner in which the $50,000 is to be expended in defeating the wishes of a majority of the people of Illinois There are rumors afloat that immense numbers of laborers are to be employed upon certain railroads in certain counties where there is a clear majority against Douglas, and that these floating Hibernians are to be employed in turning the scale in favor of Douglas. If such a scheme as this is to be undertaken it is easy to see how the $50,000 are to be employed.

We shall have more to say upon this subject hereafter. For the present we leave our readers to their own reflections upon this new phase of political corruption and of outside intervention in the affairs of the people of this State. What do you think of it, freemen of Illinois?

Preparing for the Issue of 1860.

The *Times* of yesterday labors through a column to prove that Senator Douglas is as good a Dred-Scottite as he was before making his Freeport speech. We do not doubt it in the least. If his seeming opposition in that speech to the decision of the Supreme Court has any significance at all, it evidently points to his future intention, if elected to the Senate, of voting a for a slave code for the Territories. The *Richmond Enquirer* says that is to be the issue in 1860, and that the nominee of the Charleston Convention must be pledged to it. The friends of Mr. Douglas say he will be a candidate before that Convention.

A Rural Paradise—"Lake Forest."

Editors Press and Tribune:

Having heard a great deal and read somewhat about the natural attractions of Lake Forest, on the shore of Lake Michigan, some twenty-five miles north of Chicago, I was induced to accept an invitation to take an excursion thither in company with several friends, a day or two since; and now "the spirit moves me" to tell you something about it, though I fear that if I should write about it in such language and in such style as my enthusiasm prompts me to, you and your readers would pronounce me a grandiloquent sophomore, or a silly sentimentalist.

I have visited many lovely towns and rural districts along our Lake, and in other regions of the West, but I frankly confess that I have yet to see a spot within hailing distance of our city that equals Lake Forest in the grandeur of its surroundings, the Eden-like beauty of its scenery, or the retired, fairy-like influence of its quiet loneliness. Being itself one hundred feet higher than Lake Michigan, it affords a grand view of this great inland sea and the white-winged agents of commerce that are constantly sailing up and down upon its deep and ever-moving bosom. With the earth carpeted by an exquisite covering of soft green, and shaded by a thousand ancient, stalwart and majestic specimens of the oak and the hickory, and all surrounded and aired by an atmosphere as pure and sweet and invigorating almost as that of Heaven itself, this beautiful retreat, to one who visits it for the first time, especially after being penned up within the dusty, noisy precincts of a city for a term of months, seems a very Paradise—it does in truth. There are many other beautiful spots in the neighborhood of Chicago, but were I asked to decide as to which is the most attractive in all the elements of rural loveliness and natural scenery, I would most assuredly award the palm to Lake Forest.

Wandering about in the deep shade of those fine old trees, I discovered what I had not heard of as being there before—namely, numerous mounds that the early natives—the Indians—had placed there to indicate the resting places of their dead. This must have been a favorite retreat with them, it being a well established fact, and one that speaks with poetic eloquence of the noble nature of the Red Man, that they always selected and consecrated for burial purposes the most beautiful places that could be found in all the broad and romantic regions of their habitation. And now the white man, seeking peace and retirement from the world's strife, hies him thither to build a home, which, while it will be the dwelling-place of himself and his dear ones, will also be a monument over the graves of the chieftains, the warriors and the braves, who, after "life's fitful fever," were here laid in their final rest. I fancied, as we were roaming through the forest, that I could hear in the breeze that rustled around us, a song of glad welcome from the spirit-voices of the brave and noble race which here abode long years ago, and sank to rest as the wild waves of their inland sea sink into repose after the gale's fury hath ceased.

Soon we are to have the "Lind University" established there, which will be one of the most extensive educational institutions of the West, when completed. Where, on all the face of this beautiful earth, could a spot be found so well adapted to a religious institution of learning? Many of our more wealthy and worthy residents of Chicago are also contemplating the erection of summer residences there; and in a very few years, I doubt not, Lake Forest will be our principal suburban village. Already are the streets, avenues and parks platted out, and all the prospective arrangements commenced for one of the most beautiful rural residence retreats in all the world. I shall visit Lake Forest again, and often, and so would I advise everybody to do who desire to breathe, even for a few hours, free, pure air, and drink in the sweet influences of romantic natural scenery.

The Paraguay Expedition—A Fleet of Thirteen Steamers.

WASHINGTON, Sept. 6.—The Secretary of the Navy to-day concluded an agreement for chartering five additional steamers to serve with the Paraguay expedition.

These steamers, says the *Times* correspondent, added to those already named, with the Falmouth and Preble, will make a fleet of thirteen sail, exclusive of the Brazil squadron. Four steamers of the Cromwell line, including the Caledonia and Memphis, plying between New York, Baltimore and Charleston, have been secured, and their officers are now being ordered. Captain Page thinks most of the expedition could leave in two weeks, but should Commander Shubrick wait for all the vessels to be in readiness, a month or more will elapse before the expedition sails.

A Large Railroad Loan.

A special dispatch to the Cincinnati *Commercial* states that B. F. Hallet, of Boston, and other parties, who came passengers in the steamship Fulton on Tuesday, have negotiated a loan of three millions of dollars in Europe, for the Atlantic and Great Western Railroad Company. Five hundred thousand dollars were subscribed in London, two hundred thousand pounds (one million of dollars) by a Spanish house in Paris, and the balance in iron (31,000 tons), being subject to the shipping orders of the Company. This looks as if the faith of European capitalists in American railroad securities, so rudely shaken by the revulsion, was beginning to revive.

The Atlantic and Great Western Road, says the *Commercial*, is already partially graded, with a large amount of masonry completed. The line of the road is from Little Valley, just above Olean, on the New York and Erie, through Jamestown, Meadville, Akron, Mansfield, Urbana and Springfield, to Dayton, thence to Cincinnati by a third rail on the Cincinnati, Hamilton and Dayton trunk line, for which a liberal contract was made several years since.

Vermont Election.

Returns from 89 towns show a Republican gain of 860 on the vote for Governor over the majority at the previous election. Returns of the vote for members of the House from 144 towns give the following result: Republicans, 117; Democrats, 21; one Abolitionist, and no choice in five towns.

How Spontaneous Enthusiasm is Manufactured.

We are informed by a citizen of Carlinville, who came from that place yesterday, that he saw on the platform of the railroad depot at Carlinville, *one cannon and four kegs of powder*, which had just been shipped up from Alton, and which were marked

"S. A. DOUGLAS, Carlinville, Ill."

in plain, bold letters. The cannon and the four kegs of powder thus marked were lying on the platform as freight, in open, plain sight, and were seen by a number of persons.

Douglas speaks at Carlinville to-day, and the powder was evidently purchased for this occasion. During the last four weeks "Little Dug" has been suffering. Trumbull's speech "got him down." The Ottawa forgery "got him down." At Freeport the Dred Scott decision "got him down." In despair, he takes to his last resort, gunpowder. Vive la cannon! Vive la gunpowder! Make ready—fire—bang!—*Springfield Journal, 8th.*

Murder at Dyersville, Iowa.

Mr. Kendall, who has just returned from a visit to Dyersville, informs us that a man by the name of Jerry Kelly was murdered at Dyersville on Tuesday. He and a man by the name of Owen were working for Judge Dyer, and had been quarreling. In the morning they went to work together, and Owen returned alone to dinner, bespattered with blood. Kelly was found dead, having been shot through the head, and Owen was secured and placed in custody.—*Galena Advertiser, 9th.*

THE CITY.

A Fact for Advertisers.

The present regular Daily circulation of the PRESS AND TRIBUNE exceeds *nine thousand*, and the Weekly edition has reached *seventeen thousand five hundred*. No Chicago paper approaches half this circulation.

BEGINNING OF THE JEWISH YEAR.—Yesterday being the commencement of the Jewish year, the stores of the members of that persuasion were closed.

☞ The Mechanics' Institute have invited the High School and teachers, and the teachers and master's classes of the various schools, to visit the Mechanics' Fair on Saturday afternoon next at one o'clock.

DROWNED.—On Tuesday night, as three sailors, somewhat intoxicated, were returning on board their vessel, which lay near Twelfth-st. bridge, one of them named Mellen tumbled overboard, and his companions not being in a condition to rescue him, he was drowned.

☞ There is a stray boy at the West Side Police Station. He says he is from Utica, N. Y., his parents live somewhere in Wisconsin, and test his name is Bedbury. He thinks he has an uncle in Chicago named [illegible], machinist by trade. The lad is detained at the station for identification.

NEW STEAM FIRE ENGINE.—The "Island Queen," one of Silsbee & Co.'s Holly's Patent, steam fire engines, has been received here from Seneca Falls, N. Y., and was put in operation yesterday in front of the Armory. Her official trial will be deferred until the return of the Mayor and Chief of the Department, from St. Louis, where they are now attending the Fair. The "Island Queen" is with one or two exceptions the counterpart of the "Enterprise," and on her trial performed very satisfactorily.

COURT OF COMMON PLEAS.—The September term of the Cook County Court of Common Pleas, Hon. John M. Wilson, Judge, will open on Monday morning next.

We are informed by Mr. Kimball, Clerk, that there are twenty-four hundred and sixty-three common law, and four hundred and twenty-four chancery cases on the docket. The criminal trials will occupy several days of the term there being now eight persons in the County Jail awaiting trial for murder.

Notes of the Fair.

The Fair of the Mechanics Institute now in progress at their Hall, the old First Presbyterian Church edifice, on the corner of Clark and Washington streets, opened with the present week, and has been growing daily in attraction and interest. It will remain open until the end of next week.

We propose in our notes of the fair to leave the designations of classes and number to the value it possesses with the gentlemen Committees, and give our view of the Fair as it strikes the visitor.

WHERE IT IS.

The Fair occupies the basement, vestibule, main audience room, and gallery of the old church edifice, the ample lot giving in front and at the sides space for yards, sheds, &c., for machinery and the heavier articles of exhibition.

The more attractive position of the Fair is in the main audience room, where are located the more ornamental part of the mechanical contributions, furniture, fine arts, &c.

The basement is given up to coarser utensils, agricultural and horticultural products.

The Gallery of the main audience room is devoted to *Sewing Machines*.

THE MAIN HALL.

Entering at once to the main Hall as we ascend the step, we find on either hand twelve varieties of coal, arrayed and exhibited by D. L. Boone, coal dealer of this city.

In the portico, Dr. Hargesheimer, a druggist of this city, exhibits his Patent Water Filter, and D. L. Phillips a Plastering Machine intended to lay plaster on walls and ceiling.

In the vestibule Messrs. Peck & Keeler have elegant carriages of Bridgeport, Conn., manufacture. Side by side with these stand superb vehicles, a buggy and carriage, and in the yard below a family carriage, the handiwork of John H. Kline, a West Side Carriage Builder, who does himself and the city credit in these specimens.

Entering the main hall from the east door, on the right, the "*Eagle Scale Works*" of Messrs. Gates, Warner, Chalmers & Fraser, of the West Division, S. S. Hitchcock, Superintendent, fill a large table and floor with the glittering proofs of their invitations and facilities given to the public to "*weigh well*" what they do, or sell, or buy, as indeed all but the first perhaps, these twenty or more varieties of scales will do, from that whose delicate poise a gnat would almost disturb, to the one which would weigh the "big elephant Bolivar." Citizens not aware of the doings of our Chicago mechanics in this line, will do well to pause and correct their opinions by the "Eagle Scale Works" contributions to the Fair.

Passing on, leaving Fine Arts for another visit, and taking the articles pretty much as they stand ranged.

The New York Oil Company, by A. W. Turner, give a fine display of their Lubricants, and side by side is a similar case by A. E. Goodrich & Co., of this city.

T. W. Hamilton exhibits a washing machine, also A. Quimby, of Indiana, one of the same class of alleviators of the human suffering which throughout the civilized world clings to the first working day of the family week.

Aug. Freedin contributes several valuable specimens of the superb furniture his establishment in Portland Block is famed for. An elegant and costly carved sideboard in black walnut, also chairs, &c.

Passing along the east wall we find side by side the promises of the Mechanical Bakery and the steam bakery of O. Kendall & Sons to feed the multitude, and in either case the multitude would be well and bountifully fed.

Beyond are several contributions of domestic preparations, cake, preserves, &c., inviting and toothsome, by Mrs. N. P. Iglehart, Mrs. Vaill and other contributors.

Messrs. Burgett & John, of No. 259 State street, give a fine exhibition of plaster and stucco decorative work, of numerous varieties and styles.

Messrs. Wells & Co. exhibit a model of their automatic clothes dryer.

John Wright, from his establishment, widely known as Anderson & Brother's, sends in a bridal cake, and a variety of rich ornamental confectionary. Eckhardt, of State street, also sends a beautiful and appetizing collection of "goodies," in the highest style of the confectioner's art.

The New England Car Spring Co., by C. L. Noble, their Chicago agent, have given their various *spring* fashions for railroad and wagon wear, a numerous collection.

John Palmer is represented by his famed and excellent pickles, and vinegar.

B. F. Patrick exhibits a car coupling and break.

John Schneider of this city, exhibits a patent car coupler of his own invention. Also an ingenious padlock recently patented by himself.

Sterling P. Rounds has on exhibition a variety of electrotype cuts.

James H. Hoes, 111 Lake street, a beautiful and finely finished Transit Instrument.

Thomas Buckley & Co., Patent Insulators and Conductors of several styles.

A. Pierce, an old resident of this city, and himself a skillful mechanic, exhibits a Car Coupling of J. Pearson's Patent, which from its excellent qualities, deserves certainly the notice of railroad men. It has already been introduced upon the Illinois Central R. R. It is in case of accident *self-detaching*. Wonderfully simple and plain while in use, by means of levers it acts instantaneously, when by the throwing off from the track the preceding or following car, the draft comes at all *out of a right line*, to open the link by bending back a strong spring, allowing the pin to pass out, and the car is free. This removes a serious cause of extended railroad accidents. With this coupling an engine, or even half the train might be thrown off the track and yet the succeeding cars remain upon the rail.

P. B. Green exhibits a model of a sleeping car about to be introduced on the Chicago, Burlington & Quincy Railroad which gives sleeping accommodations for the same number of passengers it can seat by an exceedingly simple and effective contrivance.

Degenheart & Loewe, 99 Clark street, contribute a richly stocked case of cutlery, surgical instruments, &c., of their own manufacture.

Miss E. C. Harts, a rich Regalia.

Farrell & Jaquet have a Panel ornament in wood carving.

Dr. John Phillips, Oculist, exhibits a large assortment of aids to feeble optics.

L. A. Hamblen, 43 Franklin street, presents a glittering array of Spun Metal work and plated ware, Locomotive Head Lights, Lanterns, Firemen's Trumpets, &c.

Messrs. Toby & Brother, of 296 and 298 State street, a Chamber Sett in Chestnut finished to show the grain.

J. E. Daniels, Patent Spring bed bottom.

Chambers & Sanborn exhibit beautiful specimens of Sign and Decorative painting.

Messrs. Hamilton, Fuller & Co., fill a large space with the highest credit to themselves with a choice display of Japanned and decorated metal wares, finished brass work and spun work.

The Chicago Barrel Company give two highly finished specimens of their skill.

W. Sternberg displays a rich collection of fancy furs.

Messrs. E. P. Marsh & Co., enter "Lyon's Patent" Copper Lightning Conductors.

C. A. Engel, No. 203 South Clark street, Gold and Silver leaf of their manufacture.

Louis Mauss, Optician, No. 79 Clark street, contributes a fine assortment of Optical instruments, Philosophical apparatus, &c.

The Excelsior Pattern Works of J. J. Vreeland 102 West Lake street, are well represented in a large assortment of finely finished Patterns.

Albert Lechter exhibits birdcages, one of them of a fanciful pattern, giving a turfed lawn, fountain, &c.

R. H. Thompson has a hand machine for pegging boots; and D. Vaughan one for measuring and recording lumber.

Messrs. J. T. & E. M. Edwards present a superb array of silver and plated ware, watches, jewelry, &c., from their establishment, No. 101 Clark street.

Dr. Henri Dorion enters for competition his tooth-powder, and exhibits a beautiful assortment of dental stock, tools, &c.

A. G. Garfield has a lot of builders' and general hardware; and Messrs. A. R. & G. H. Miller, No. 237 State street, a show case of tools, among them planes of a beautiful and novel construction.

Mace's Portable Gas Generator is exhibited by the Agents in this city. It is an apparatus by which the ordinary gas pipes and burners are made available, the material used being Burning Fluid of the common kind, thus conducted to all parts of the house, and at the burners converted into gas. It attracts much attention.

Wm. H. Starks, No. 149 Lake street, has a case of Gold Pens of his manufacture.

Messrs. Bryant & Stratton of the Commercial College present specimens Penmanship, Systems of Bookkeeping, &c.

Drs. Fuller & Albaugh exhibits specimens of their skill in Mechanical Dentistry.

M. Campbell, 81 South Clark street, J. Gray & Co., No. 71 South Clark street, and Wm. Link, No. 123 Chicago Avenue, vie with each other in a wonderful variety of jewelry and ornaments in hair, these contributions being much admired.

Messrs. A. J. Campbell & Co. have on exhibition a magnificent large sized counter show case.

Adolph Obstraldt, George H Foster, and J. Gray, &c., exhibit specimens of the art deceptive in cheating Time of his trophies by furnishing anew the human head.

THE "TASTING COMMITTEE."

We pause in our notes of the Fair and its attractions to give a little space as we before gave time (and space,) to investigations of a most pleasing and scientific character. The managers of the fair were mindful of the old adage establishing "the proof of the pudding," and issued cards, one of which fell to our lot, establishing a "Tasting Committee."

Punctually at the hour of 12 M. there was a full committee meeting, and a little later its functions commenced upon a field of action where no fear but much favor was shown. The number of the "Committee" was about two hundred, and comprised managers and officers of the Institute and invited guests.

Roast beef, boiled ham and other substantials had been provided by the managers, leaving exhibitors to fill up the interstices of the feast, and add "decorative" features.

The former had been done liberally, and the latter was done no less so.

Alderman Kendall delivered round upon round of his sweet, light bread, and toothsome crackers, Messrs. Childs & Co. followed suit from the Mechanical Bakery, and Messrs. Dake & Co. of 82 Randolph street sent a golden cheese, an honor to Illinois.

Then came "Edward" of John Wright's establishment, ("Anderson's,") with his icecream and twenty-five varieties of cakes rich, sweet and delicious.

Eckhardt of State street was there also and "dealt" a full "hand" to all round, and the feast was both fat and merry.

Why need we speak of "Metheglin" that was there, and Lill & Diversey's most Diversey-fied varieties of the malt beverage, or the *lager* and ale, etc., etc. It will excite envious feelings all this description. Suffice it to say there was enough of all, and every one with a *full* sense of their liberal doings and devisings, blessed the Institute and its managers, vowed they had been Fair-ly dealt with, and were cheerful and contented, a frame of mind that followeth a good deed done in the dinner line.

John C. Dore presided at one end of the table and Alderman Carpenter at the other, and between the two, i. e. down both sides of the long table, much execution was done.

Brief but happy speeches were made by Aldermen Long, Carpenter and Kendall, Messrs Dore, Childs, S. M. Wilson and others.

The "Tasting Committee" broke up its session with the desire at least of holding a life term of office, with many returns of the arduous duties they are only too happy to undertake for the public good and benefit.

COOK COUNTY AGRICULTURAL AND HORTICULTURAL SOCIETY.—The Society met at the Mechanics' Institute Rooms, September 6th, President John A. Kennicott in the chair. H. D. Emery was appointed Secretary pro tem.

The following officers were elected for the ensuing year: Dr. John A. Kennicott, President; Charles D. Bragdon, Corresponding Secretary; H. D. Emery, Recording Secretary and Treasurer.

The following gentlemen were elected as an Executive Committee: J. L. Wilson, S. D. Childs, Edgar Sanders, R. E. Clough, M. S. Johnson, John McIlldowney, H. H. Yates, with President Kennicott and ex-President Periam as *ex officio* members.

At a meeting of the Executive Committee it was decided to meet the officers of the Mechanics' Institute at their rooms, on Friday, the 24th day of September inst., to take into consideration the opening of a Farmers' Reading Exchange Room in this city, which shall be kept open for the assembling and meeting of farmers as they come into town.

METEROLOGICAL AND MARINE.—The wind which has been exercising itself by boxing the compass, and blowing moderate guns from all points during the past week, yesterday seemed to have disturbed the weather machinery and "broke something." A succession of suborb showers swept over our city and vicinity, laying the dust, brightening up the garden "sass," and washing the face of Nature generally. It was a job well done, and for a time the only unforgiven individual was the man who had borrowed or stolen the umbrella that everybody wanted.

SABBATH SCHOOL EXCURSION.—The Railroad Mission Sabbath School, connected with the First Presbyterian Church, will make an excursion to Hyde Park on Saturday. The cars will leave the Illinois Central Depot at 9½ o'clock, A. M., and return at 4½ P. M. Tickets, 25 cents. The friends of the School are invited to attend.

POLICE.

The usual run of small cases occupied the Police Court yesterday.

SELLING ANOTHER MAN'S CATTLE.—A man named John David was examined before Justice Milliken on the charge of disposing of cattle at the Bull's Head, that he found grazing upon the prairie, and that did not belong to him. The examination resulted in his being fully committed for trial.

THE REFORM SCHOOL—POWER TO DISCHARGE, ETC.—The *Journal* of yesterday says:

A well-known citizen of this city, was this morning brought before Justice Stickney, charged with interfering with an officer who attempted to arrest his son for escaping from the Reform School. It calls the attention of the Board of Guardians of the Reform School, to Sec. 4, of the Reform School Act, and more particularly to that portion, which reads as follows: "And the said Board of Guardians are hereby clothed with the sole power to discharge any boy or boys from said Reform School, who have been or may hereafter be legally committed to such Reform School, and such discharge shall rest solely with said Board of Guardians and with no other person or body politic or corporate.

In this case the Board or Individual members of it, replied to a petition to discharge the boy above mentioned, that they had no power to do so, and were unable to tell who had such power, but were all united in the opinion that the boy should be discharged.

LOCAL AND GENERAL.

MISSING.—At a wedding party at Mrs. Clark's, a few evenings since, three valuable porcelain table figures were taken by some of the guests. Those having them in possession will confer a favor by returning them to "Anderson" (John Wright) the confectioner, on the above occasion, No. 83 Clark street.

ATLANTIC TELEGRAPH CABLE.—Messrs. Miller & Brothers, corner of Clark and Lake streets, have just received specimens of the cable made into the most elegant charms we have ever seen, mounted in gold, and varying in price from fifty cents to three dollars. They are also in receipt of the Fuchia Chenille, silvered and enamelled and other styles of ladies' hair pins, the latest and most fashionable brought out in New York and other cities, and never before offered in Chicago. These are, beyond a doubt, the handsomest [illegible]. We would also call attention to the fact that the specimens of the Atlantic Cable for sale by the Messrs. Miller are undoubtedly genuine, as will be shown by paying them a visit to their establishment, corner of Lake and Clark streets.

EXCURSION.—The Tabernacle Baptist Church congregation and Mission School have a pic-nic excursion to the groves of New Lenox, 35 miles from the city, on the Rock Island Railroad, on next Saturday. Cars leave at 9 A. M.

TELEGRAPHIC NEWS.

St. Louis Fair.

ST. LOUIS, Sept. 9.—Yesterday was the most interesting and exciting day of the Fair so far. The exhibition in the morning consisted of a remarkably fine display of thorough bred and native cattle, premiums for which were divided between the States of Missouri, Illinois, Ohio and Kentucky.

In the afternoon the very climax of excitement was reached; the display in the amphitheatre being a large number of Morgan, Black Hawk and other breeds of roadsters, embracing stallions, geldings and mares of all ages, and probably no better collection of horses was ever exhibited at any Fair in the Union.

The interest continues to increase, and fresh enteries of horses and cattle are daily being made. To-morrow morning there will be an exclusive exhibition of Morgan and Black Hawk horses, of which there are about forty on the ground.

The North American.

NEW YORK, Sept. 9.—The steamer North American passed Riviere du Loupe this morning steaming very slowly. She had lost her bowsprit, and her rigging was apparently shattered. She had been in collision with some other vessel.

MONTREAL, Sept. 9.—The steamer North American, from Liverpool, August 25, arrived at Quebec at six o'clock this evening. Her detention was caused by fog. She has not been in collision with any vessel, and there is nothing wrong with her bowsprit or rigging. The private dispatch to that effect sent to New York, was the merest conjecture, and as such deserving the strongest reprobation.

Vermont Election.

MONTPELIER, Vt., Sept. 8.—We have returns this evening of the Governor's vote from eighty-nine towns, which foot thus: Hall, (Republican) 13,256; Keyes, (Democrat) 6,359; scattering, 81.

Last year the same town gave the Republicans 12,180; Democrats, 5,098; scattering, 125. Republican majority over all, 8,816. Majority last year, 5,956. Net Republican gain in 89 towns, 860.

Returns from 144 towns give the following results: For Members of the House—Republicans, 117; Democrats, 21; Abolitionist, 1; no choice, 5.

Congressional Nomination, &c.

NEW YORK, Sept. 9.—Ex Gov. Wm. Pennington was yesterday nominated for Congress by the opponents of the Administration in the 5th District of New Jersey.

Capt. D Riviere was arrested last night for assault on a person named Gravit, who had published a statement derogatory to him. The charge is an attempt to kill.

Commander Jenkins is assigned to the Preble, and Commanders Marchard, Ridgely, Case, Pennock and Hurlbut command the steamers obtained by government from private sources.

Opening of Troy University.

TROY, Sept. 9.—The Troy University, upon Mount Ida, overlooking this city, was formally opened to-day. The inauguration exercises were attended by a large concourse of people, and a highly interesting address upon scholastic education was delivered by Prof. Strong, and speeches were made by Rev. C. S. Robinson, Rev. Dr. McClintock, Hon. Hiram Slocum and others. About sixty students have already entered at the University.

Pure Milk! Pure Milk!

THE UNDERSIGNED IS RECEIVING daily, and offering for sale, PURE MILK from the dairies owned by the following named men in Elgin and vicinity: S. J. Kimball, Dea. Luther Herrick, S. P. Burdick, P. H. Smith, N. Ballard, General D. Wilcox, C. Knox, Cyrus H. Larkin, J. J. Cook, A. G. Buckins, D. C. Adams, M. Sherman, H. Sherman, J. F. McLean, J. Salisbury, [illegible] ... The milk is put up with the greatest care, and ... We challenge investigation, and any one is at liberty to examine our milk at any time. And we pledge ourselves to pay TEN Dollars a quart for all the swill or impure Milk that we have or may sell.

I. H. WANZER.

Chicago, June 17th, 1858.

We are well acquainted with the above named farmers, and know that their dairies are as cleanly and healthy as any dairies in Illinois that we are acquainted with; and believe that the owners would not, under any circumstances, be guilty of selling impure milk. And we are well satisfied that Messrs. Wanzer & Co., who sell Milk from these dairies, sell nothing but such Milk as they receive from said dairies.

E. J. COLBY.
A. J. JOSLYN.
B. W. RAYMOND.

Mr. I. H. WANZER: Yes, I am more than willing to add my testimony to the evidence of Elder Joslyn, Esq. Colby, ex-Mayor Raymond, and others.

"Do I know those men who furnish the milk you sell?" Sir, I have known them from the start. Eighteen years ago we were "squatters" side by side on what was then the "public domain." but what is now their farms, covered with cultivated grasses. I know that their cows "live in clover," and retain that candatory appendage their city cousins kept in distilleries so commonly forego; that their dairy fixtures and appurtenances exhibit proof, that in the country cleanliness is considered a cardinal virtue; that the milk reaches you via the C. & G. U. "milky way"—cool, sweet and pure.

"What am I willing to say to this community of you?" Why, that you are Kane county boys, reared in the rural districts—Nature's noblemen—and that I believe you as incapable of adulterating milk as of poisoning children in any other way.

EDW'D W. BREWSTER.

N. B. I hold myself responsible for no milk except my own. That can be had of wagons No. 1, 2, 3, 4, 5 and 6, marked "Elgin Dairy, I. H. Wanzer."

What is to be the next Issue?

We all remember how suddenly in 1856, the issue of Popular Sovereignty in the Territories, was replaced by that of "*State Equality.*" The former, up to that period, had been defined to be "the right of the people of the Territories to establish or exclude slavery during the continuance of their Territorial condition." The latter was intended to be an assertion of the right of the people of the slaveholding States to take their slaves into the territories, and hold them there under the guarantee of the federal Constitution. The two principles were essentially antagonistic. The admission of the one was the denial of the other; and by those not conversant with political strategy it was thought to be an impossibility to reconcile them. That work, however, was done, as we all know, for both Popular Sovereignty and State Equality were incorporated into the Cincinnati Platform. We will explain how it was accomplished. [illegible] Cincinnati Convention, a number of the leading Southern journals began overhauling and severely condemning the popular notion respecting the newly invented dogma of Popular Sovereignty. Among these the *Richmond Enquirer* was conspicuous for the severity of its denunciations of that principle, and for the earnestness with which it contended for the right of slaveholders to settle with their slaves in the Territories under the guarantees of the Constitution. It boldly declared that no man could get the nomination of the Cincinnati Convention who would not repudiate the doctrine of Popular Sovereignty, and give in his adherence to that of State Equality as defined above. The genius of Mr. Douglas, who was a candidate for the nomination of that Convention, was equal to the emergency. He conceived the idea of harmonizing the two conflicting sentiments, and, after a fashion, he accomplished it, although another Presidential aspirant reaped the advantage thereof.

Shortly before the Cincinnati Convention the Democracy of Illinois met in State Convention at Springfield. A series of resolutions prepared by Mr. Douglas were sent out from Washington City, and adopted by this Convention. These resolutions, as was shown in our columns a few days ago, embraced all the heresies of the late Mr. Calhoun; they declared also for the doctrine of *State Equality* as demanded by the *Enquirer* and its cotemporaries at the South, and they limited the exercise of Popular Sovereignty by the people of the Territories to the single act of determining, when forming a State Constitution, whether slavery should or should not be one of the recognised institutions of the State. Mr. Douglas perhaps never before nor since performed such a feat in political legerdemain as this. Even in the estimation of the South it added fresh lustre to the name of the great compact-breaker. The *Enquirer* declared itself satisfied—the whole South was satisfied, and when the Cincinnati Convention met, it made the Illinois resolutions the creed of the entire Democratic party. State Equality, with just enough of popular sovereignty to obscure its meaning at the North, was in reality the great, the leading issue of the canvass of 1856.

Subsequent events have given to the doctrine a prestige and importance far beyond the power of a party platform to confer upon it. The Supreme Court of the United States has declared, in the Dred Scott case, that State Equality, or the right of slaveholders to settle with their slaves in the Territories, is one of the guarantees of the federal constitution. The party creed has the indorsement of the highest judicial tribunal in the land. It carries with it the authoritative sanction of law.

But the slave-power is not yet content. It desires something more than a mere recognition of its assumed rights in the Territories. The guarantees of the federal Constitution are slow and difficult of enforcement. There is too much machinery of Governors and Marshals, and Courts, and United States Armies requisite to give vitality and efficacy to those guarantees. And to this fact we must look for the next great issue—the issue of 1860. For just as certainly as the Supreme Court has decided in accordance with the wishes of the South on the question of the right to hold slaves in the Territories, will the slave-power *compel the Democratic party to render that right perfectly easy of enjoyment.* Do not all the partisan papers of the South declare that their only hope is in the Democratic party? Have not the South used the Democratic party to break down the Missouri Compromise, to open all the Territories to the incursions of slavery, and to secure a decision from the Supreme Court which nationalizes slavery, and renders freedom possible only by virtue of local State laws? And having used it for these purposes, is it likely that the South will not use it also for whatever else it may desire? Now, what else does the South wish? Plainly a slave code, comprehensive, prompt and easy of execution, *for* all the Territories. This will be its next demand; and this demand will constitute the great issue in the next Presidential canvass. Already we have intimations to this effect, and singularly enough they come from the same source that the demand for converting all our Territory into slave Territory came from, in 1856—the *Richmond Enquirer.* We quote from a recent number of that journal:

> The right of property in slaves, in the States, is now placed practically, as well as legally, beyond the reach of federal legislative encroachment. But in the Territories, the case is different. It is not sufficient that the decision of the Supreme Court prevents Congress and all its delegates from the prohibition of slavery in a Territory. *There must be positive legislative enactment; a civil and criminal code for the protection of slave property in the Territories ought to be provided.* To a limited extent, this is already provided. In every Territory containing a majority of pro-slavery men, the power of the Territorial Legislature is all-sufficient for the purpose. In other Territories, it at least is doubtful whether the Legislatures will exercise this power, and there is no power elsewhere to compel such exercise. In such a case of omission, and under the present state of federal legislation, much, if not all, must depend on the loyalty and efficiency of the President of the United States. He it is who appoints the Territorial executive and judiciary. *It will be the province of this judiciary to protect slave property, as far as possible, under the laws of the federal code for the protection of property generally; and it will be the business of the Territorial executive to uphold and enforce the authority of the judiciary.* It will be the duty of the President to hold both functionaries to a zealous performance of their several offices. Hence, *the next Democratic nominee for the Presidency should be pledged to the protection of slave property in all the Territories.*
>
> *And we go further. It is very desirable that Congress should pass additional laws for the protection of slave property in the Territories.* This would not operate to force slavery upon an unwilling people. It would simply protect slave property wherever it was actually found—it would not prevent the prohibition of slavery when a people came to form a State Constitution; in short, it would secure every constitutional right, without arbitrarily attempting to contravene climatory laws, and would remove forever the discussion of slavery from the halls of the Federal Legislature.

We said that it was not a little significant that the issue, so clearly stated above, for 1860, is raised by the same paper that first broached the issue of 1856. There is another significant fact about the matter. *That paper is one of the most ardent supporters of Douglas in the South.* It is also a significant coincidence that the first paper in the free States which indorsed the Richmond *Enquirer's* demand in 1856 for State Equality, is also the first to give an affirmative response to the issue demanded in 1860. We allude to the N. Y. *Day Book,* which indorses the *Enquirer* in the following unqualified terms:

> Of course the people of a Territory, when they frame their State Constitution, may adopt or exclude "slavery," *but while they are a Territory,* if they fail to protect property invested in the person or industrial capacity of the negro, they grossly violate equal rights, and therefore are *not authorized to consider themselves Democrats.* The whole question is resolved into this simple right or no right to *protection to slave property in the Federal Territories, and it must constitute the issue in* 1860.

We do not entertain a doubt but that it will constitute the issue of 1860; nor do we entertain a doubt but that this is one of the series of measures agreed upon in 1854, of which the repeal of the Missouri Compromise was the first, the last of which is to plant slavery as firmly and under equally efficient protection in all the Territories of the United States as it now enjoys in Georgia or South Carolina. We are also just as firmly convinced that if the people of Illinois reelect Stephen A. Douglas to the United States Senate, he will perform the same prominent part in fighting through this last developed step in the scheme of Africanizing the country that he played in the first—the repeal of the Missouri Compromise. We know not by what phraseology he will seek to disguise and popularise the issue; but the man who broke down the Missouri Compromise under the war cry of Popular Sovereignty, and who nationalized slavery by planting it in all the Territories under the specious guise of State Equality, will probably be at no loss for an equally deceptive and equally popular phraseology to delude multitudes of his party at the North into the open support of a universal slave-code. We can almost give in advance the stump speech which he will put into the belly of his slave-code bill: "It being "the true intent and meaning of this act, "not to legislate slavery into any Territory or "State, nor to exclude it therefrom, but merely to carry into effect those Constitutional "guarantees for the protection of property "which are the birth-right of every citizen." Would you defeat the propagandists in this last act of their damnable scheme? If so, defeat their chosen instrument, Stephen A. Douglas, and the battle is already won. If you elect him, the consummation of the whole scheme is secured.

"Shoot the Deserters."

The Democratic party and the society of Jesuits are the two most perfectly organized associations in the world. The energies of both are directed to the spread and perpetuation of slavery, in its various and damning forms. Their books of discipline are as ruthless as the code of Draco. "Shoot the deserters" is the first maxim of their domestic economy. The element of mercy is so totally foreign to their system that the offender against their laws may as well say his prayers and compose himself for his change at one time as another. The victim of one radical error, though repented of in tears and sackcloth, with protests and promises, with lamentation and much mourning, is coldly pointed to the place of execution and reminded that "there is no work, nor device, nor knowledge, nor wisdom in the grave, whither thou goest."

Especially prominent as master of discipline in the Democratic party, was Stephen A. Douglas. When the fatal Nebraska bill was introduced into Congress it was his custom to lead whole battalions to the bloody ground every morning. "Shoot the deserters" was the piratical watchword with which he hedged his own shivering camp; "we will subdue you" was the equally piratical defiance which he hurled at his adversaries. Between the two he was finally successful in decimating his own party and bringing his antagonists into power in every State in the Northwest. Yet did he not flinch from the exercise of the most rigid and relentless code of party government. The least difference of opinion on what he chose to call "test questions" was suppressed by a prompt application of the bowstring. No Inquisition was half so vigilant or so vengeful in pursuit of heresy, as Mr. Douglas when on the track of some weak brother who feared that it was not true Democracy for Missourians to make laws for Kansas.

But it is no concern of ours how the Democratic party choose to form and regulate their own domestic institutions—what course of physic they prescribe for the political distempers which break out and rage in their own private hospital. It is within their power to effect cures by shooting the patient through the head if they choose. Family quarrels are the most dangerous and fatal in the world to interlopers, and we care not to run any risk by interfering with the "course of sprouts" which the Democracy have prepared for the purification of their own household. Yet we cannot help suggesting to Mr. Douglas and those who vociferated the praises of his discipline in 1854-5 and 6, that none can be so well aware of its efficiency as they. We cannot help commending to them the wholesome effect of that butcherly motto "Shoot the deserters." They are approaching a very Waterloo. Mr. Douglas is coming every day nearer and nearer to the quenching of his political life. Nor is it any common overthrow that awaits him. If the popular tide continues to flow as it has within the past two weeks he will not have ten members in the next Legislature to do him the empty honor of casting their votes for him. Till his dying day he will charge the fate which overtakes him to treachery in his own ranks—to those "unscrupulous Federal office-holders." If they should retort upon him "Shoot the deserters," no one could so well appreciate the fatal meaning.

Morris at Plymouth.

Col. Morris stopped at Plymouth on Friday, to speak, but found nobody there to speak to! He was taken sick suddenly and left for home! It is astonishing what "unbounded enthusiasm" this man creates wherever he goes! It is tremendous.

Can't Morris imitate Douglas and carry along with him a small swivel to wake up the Morrisites in the regions around about? If that would prove unhandy, we suggest a pocket-pistol.—*Quincy Whig.*

Episcopal Convention.

The Twenty-first Diocesan Convention of Illinois will meet at Springfield on the 15th inst., at 8½ A. M. The Bishop has appointed the Rev. H. H. Whipple, of Chicago, to preach the Convention sermon, the Rev. Anson Clark, the sermon on Pastoral Care, and the Rev. H. N. Bishop, of St. John's Church of Chicago, the Missionary sermon.

Douglas and Lincoln in Kansas.

[Correspondence of the Press and Tribune.]

[illegible], Kansas, Aug. 21, 1858.

We of Kansas are deeply interested in the struggle between Douglas and Lincoln. Having tasted the bitter fruits of the "popular sovereignty" delusion, we are in no wise opposed to a thorough discussion and acquaintance of its beauties and consistencies by the citizens of Illinois. Having a particular interest in all that relates to the Douglas dogma, we of course will be pardoned for inquiring into the truth of Mr. Douglas' persistent and consistent adherence to it.

When the Convention which framed the Topeka Constitution assembled, it was composed of a majority of persons favorable to "squatter sovereignty." A resolution indorsing it was introduced by Lane, supported by M. W. Delahay and others, and only prevented from passing through the intervention of Gov. Robinson. It was urged by these men that an indorsement of that dogma by the Convention, would enlist the aid of Mr. Douglas in support of the Constitution, and that he would gladly urge our admission into the Union under it in vindication of his principle and in order to relieve the squatters of Kansas from their subjugation by Missouri.

It will be remembered that the Topeka Constitution emanated directly from the squatters of Kansas, and afforded them the best method of relief from the Legislature forced upon them by the ruffians of Missouri. When that Constitution was submitted to Congress, Mr. Douglas opposed it and denounced the people of Kansas in the most insulting and disgraceful terms for thus exercising their "sovereignty." With a bitterness only equalled by his insolence he condemned them for their manly refusal to obey the laws enacted by the Legislature elected by the Missouri invasion of the 30th March, 1855.

It cannot be denied that there were many persons in Kansas who *believed* that Mr. Douglas would endeavor to afford us relief from our outrages. Regarding him as the great defender of popular sovereignty, they presumed that he would desire and demand that its essential principle should be faithfully applied. The Missouri invasion was such an outrage upon it, they expected that he would immediately denounce it and introduce some measure for our protection. This he failed to do, although repeatedly urged by many of the most respected citizens of Kansas, then in Washington. Instead of listening with respect to the demand of our citizens for redress, he treated them coldly, denounced the Topeka Constitution as a revolutionary movement, declared that if the squatters should endeavor to put it in operation, they should be put down *by force,* and charged them with being lawless and treasonable in their opposition to the bogus code. The citizens simply demanded a fair application of the principle of squatter sovereignty, and for it were denounced by Mr. Douglas, who instead of permitting them to "regulate their domestic institutions in their own way," declared them traitors because they would not permit the citizens of Missouri to domineer over them with impunity.

Mr. Douglas opposed the Lecompton Constitution because it was not submitted to the people, but supported the Toombs bill which contained *no provision* for submitting the Constitution to the people. He has said that if his attention had been called to the matter he would have favored an amendment authorizing its submission. The revelations of Mr. Bigler in regard to the bill and our knowledge of Mr. Douglas' character would excuse for doubting his recollection in this matter, did we not have other proof which is satisfactory to us.

When the Toombs bill was submitted to Congress, M. Y. Roberts was in Washington and earnestly opposed it passage. He published an able letter upon it, minutely stating the objections to the bill and enumerating that as one. This letter was widely published and circulated. We in Kansas were aware of the fact and considered the bill a new invention of the enemy to deprive us of the opportunity of "regulating our affairs in our own way," and we are now not only amused but astonished to think so important an omission should have escaped the observation of the "LittleGiant."

Kansas at that time was the theater of civil strife. The authorities, aided by the Administration, were striving to enforce odious laws upon an unwilling people—laws made in direct opposition to Douglas' pet Nebraska act. For us thus wickedly oppressed, the victims of murder, lust, fire and robbery, Mr. Douglas had no word of sympathy nor aid. His words, "WE WILL SUBDUE YOU," flashed along the [illegible] son and other noble men, guilty of no crime, except an honest, brave and manly determination to carry out the principles of squatter sovereignty, were arrested by the United States Marshal, a Douglas man from Illinois, imprisoned and guarded all summer by the Federal troops.

We cannot conceive why we should be grateful to Mr. Douglas. He withheld from us his support when we were weak and in need of it—now that we are strong and do not need it, he proposes to overload us with obligations, trusting no doubt that we may yet find time to be grateful. We believe obligations are valuable, if conferred when needed, and given with sacrifice. We believe their value diminishes when the necessity for them ceases and their donation gives popularity and political distinction to the donor.

Our victory, yet incomplete, has cost us too much to allow us to treat our enemies without jealousy and mistrust. While we can afford to be magnanimous, we dare not cease watching. It is not enough for a man to oppose Lecompton to demand *our* support. As citizens of a Territory we demand the right accorded by the Nebraska bill to regulate the institution of slavery as we choose, which the Dred Scott decision, as sustained by Mr. Douglas, *denies to us.* As citizens of Kansas, who have suffered some foreign invasion, we honor those citizens of Missouri who denounced such interference with our affairs and are struggling to secure the blessings of freedom to that State. Mr. Douglas, on the contrary, has no sympathy for them, but rejoices in the victory of those who have trampled upon the Nebraska act and violated its most sacred provisions.

We trust that the people of Illinois will now finish him by a majority more significant than that which *we* gave against the English bill. Elect your own noble and honest Lincoln, whose voice was raised in our behalf in the hour of our sorest need, and the echo of your victory will be heard from every hill-side of

KANSAS.

A Democratic Pow-Wow—A Split—Two Sets of Delegates—Fun Ahead.

[Correspondence of the Press and Tribune].

HENNEPIN, Sept. 7, 1858.

Yesterday the "harmonious Democracy" assembled in the Court-house at this place, to appoint delegates to the Congressional Convention at Bloomington, and to the Senatorial and Representative Conventions at Lacon.

As it was rumored that the two wings of the party were going to bury their past differences, and to smoke the calumet of peace, the writer among others repaired to the scene to witness the funeral. But it was no go. Neither faction could convince the other that "we are all Democrats;" and after some brisk sparring on both sides, the bell wether of the Buchaneers gave the Douglasites his opinion of them and the object of their blind worship (said opinion was no very flattering one,) and left the room, followed by about half of the meeting, and adjourned to another room in the same house, where they passed resolutions sustaining the President and denouncing "Dog," while the Douglasites just reversed this operation. Both meetings appointed delegates to the different Conventions.

Mr. Coffing's letter of acceptance, which has been anxiously looked for by a few "sore heads" here, has at last appeared. It is regarded here as a shallow affair. Something of the Dickey stripe, only not so much so. Coffing will not get twenty Republican votes in this county. It is well understood that the movement was gotten up by the Democrats to defeat Lovejoy, whose heavy blows at the rotten old carcass of Democracy are making them tremble in their shoes. But let them "trot him out;" as some one has to be beaten, it might as well be Coffing as any one else. As the Democrats have furnished a Coffing for the Republicans, the Republicans intend to furnish a Coffin for the Democrats and their candidate about the first of November.

It may be well to state that one of the signers to the letter requesting Mr. Coffing to become a candidate, is also a Douglas delegate to the Bloomington Convention.

I must relate an anecdote told and vouched for by a Douglasite on a Buchaneer, and as "we are all Democrats," of course it must be so. Said Buchaneer keeps a grocery, and is a candidate for Sheriff. One afternoon a couple of his customers were discussing their lager and the English Bill, when all at once our would be Sheriff broke out and wanted to know "why in thunder England couldn't let this country manage her own affairs in her own way!" Nuf ced.

Hurrah for Lincoln. BUCKEYE.

Correction.

Editors Press and Tribune:

We observe in your paper of the 7th inst., in an article headed "Forging an Acceptance," that the same was cashed at the Bank of Peru. This is an error, the draft in question never having been in our hand, and we have no knowledge of it whatever. Please correct, and oblige,

Yours truly,

Meeting of the American Board of Foreign Missions.

[Correspondence of the Press and Tribune.]

DETROIT, Mich., Sept. 8, 1858.

The American Board of Foreign Missions assembled in Dr. Duffield's Church at 4 P. M. yesterday, President Hopkins, of Williams College, in the Chair. After reading the Scriptures and prayer, the Board proceeded to hear the annual reports of the various officers, the Treasurer, Secretary of the Home Department, &c. The Treasurer reported the receipts $304,000, with an excess of expenditures over that of the receipts of $40,000.

In the evening the Annual Sermon was preached by Rev. Prof. Shepard, of Bangor, Me., from Luke 11:41, on the subject of Benevolence, or as expressed in his own words, "Giving what God has given us as a means of purifying and sanctifying our hearts." This, he remarked, was retrospective and prospective. Retrospective benevolence had reference to redress for past wrongs. Where this is impossible from the circumstances of the case, we are to show our repentance (in part) by giving to the glory of God. Like Zaccheus, restitution is to be made four fold. Second, The present and prospective discipline of the habit of giving. It checks the *love* of money, which is wrong; not *money* itself, he remarked, but the *love of money.* What crimes, he remarked, have grown out of this love of money, the huge wrongs which selfishness has created and perpetuated.

The proper condition of giving is principle. *Give in measure and continually until you feel it.* The enticing system of giving a tenth is not a just or a true one now. It operates unequally. Some will not feel the tenth at all from their great hoard of gain. Give the tenth, he said, and give as much more. Christian men must not seek to accumulate beyond a certain point. They must build up a broad and deep barrier against the lust of possession. Men gain a little, and determine not to diminish it, hence they grow more and more penurious as the gains increase. The great iron chest has a very smooth way *in* and a very rough way *out.* Benevolence on the right principle will make everything clear. It will sanctify everything into which it comes in contact.

The speaker made a touching and happy allusion to the recent Religious Awakening, hoping the great company of converts would come forward as givers and workers. Prof. Shepard is evidently a plain earnest man, and thinks more of truth than the manner in which it is presented. He roused up at times to the fire of true eloquence.

The meeting is largely attended. Fifteen hundred or two thousand strangers are supposed to be present. Among them are many of the leading divines and laymen of our country: Chancellor Walworth, of N. Y.; Judge Jessup, of Pa.; Dr. Beman, of Troy, and many others. The hospitality of Detroit will be extensively taxed, but it seems adequate to any demand.

Yours truly, LOWE.

DETROIT, Mich., Sept. 8, 1858.

The morning prayer meeting at 8 A. M. today at the First Baptist Church was very fully attended, the floor and galleries being both full. Rev. G. Duffield, Jr., of Philadelphia, led the meeting. Venerable fathers testified to the mercy and grace of God in the conversion of men. Rev. Mr. Meigs, of Ceylon, made a tender appeal, stating the interest of Missionaries in the cause of Christ at home. Hymns were sung by the whole congregation, stirring the heart of all.

A meeting of missionaries was also held by themselves at 8 A. M.

Sept. 8, 9½ A. M.—After prayer, Dr. Anderson and Assistant Secretaries read an abstract of the Annual Report concerning the mission fields. After this the inclosed resolutions were presented by Dr. Pomeroy and discussed by Dr. Pomeroy and others. Dr. P. went on to show the general condition of the missionary cause in Turkey, India and China. Religious liberty was evidently advancing in all these. India would not be prostrated, but ultimately benefited by the Sepoy rebellion. China is opening her ports for free intercourse. Africa is opening up under the efforts of Dr. Livingstone and others.

The Great Awakening at home is another vital interest to the foreign field. The prayers of God's people must go out after missionaries. Young men will consecrate themselves to the cause, and money must be given. The signs of the times point this way.

The Atlantic Cable adds to the interest. It will flash the news from shore to shore. It will be a great sympathetic cord, branching off and reaching every human heart on the face of the globe. How it would have cheered all the missionaries if they could have known last April that God was pouring out his spirit.

President Hopkins suggested that prayer was now appropriate, and called on Rev. T. A. Mills, who offered an appropriate prayer.

Rev. Father Gleason said the Atlantic Cable was needed to celebrate the praise of God. Even the ocean was made to speak.

Dr. Beman then addressed the meeting. Dr. B. remarked that he had rather touch the surface now at the beginning of the meeting, and leave others to go deeper. He did go quite deep after all, over the Cable, upon which he commented. 1st. The Cable of Sympathy, uniting those who were afflicted; merchants stranded, commerce failed, work ceased. It interested men now in heathendom, as they were made to look abroad. 2d. The Cable of Faith. 3d. The Cable of Inter-communication, of Christian thought. I love Africa, said Dr. B., because Christ died for it. Dr. Livingstone was one of [illegible] of the world. 4th. The Cable of [illegible] and to the throne of God. Dr. B. remarked that the sermon was the first real charity sermon he had ever heard. 5th. The Cord of Union—union for Christian action for God and the world.

Judge Jessup next addressed the meeting. He intended to bring forward practical conclusions. God would convert the world, and he believed the young men of America would be conspicuous in this work. Are they ready and willing for this work?

S. Pomeroy, Esq., of Clinton, Mich., made some remarks. He was converted by reading David Brainard's Memoirs. The lead upon the monument of Brainard, at Northampton, Mass., was taken out to make bullets in 1812. The speaker got marble and filled the cavity, and had Brainard's name inscribed upon it.

Judge L. Child, of Lowell, Mass., then addressed the meeting. He spoke of the general progress of the cause. China was no sooner opened than the telegraph was used to secure ships for the new ports which were opened. China should receive the Gospel with her commerce. Judge C. said young men must be depended on to do this work. It must be a work of progress, commensurate with the history of the present day.

Rev. T. A. Mills said he felt that we should give ourselves to this work as we had never done before. We must be missionary men. We want the character of early missionary times. We want a better system of missionary schools. We want the fire of Christian hearts. Early Christian instruction is necessary. Pastors must have the feeling that the children will be missionaries. Mr. Mills alluded feelingly to the historic associations of Detroit; to the sons of Kentucky who died for the honor of the American flag in this vicinity. If men will do so much for earth, we should do as much for God.

The remarks were interspersed with singing old hymns and old tunes, with the spirit and understanding also.

Committees were then nominated, and the Board adjourned to 2½ P. M. The meeting this morning was enthusiastic and earnest.

Yours truly, LOWE.

Michigan Politics—Stuart Capitulates to the Administration, and is Nominated for Governor.

[Correspondence of the Press and Tribune.]

KALAMAZOO, Mich., Sept. 7th, 1858.

Last Thursday the "glorious Democracy" of the Peninsular State held their biennial Pow-wow in the city of Detroit. From the Post-offices and Land-offices, from their dens and hiding places, came the *martyrs* to place and power, from their quiet rural homes, from the village and the farm-house, the simple and single-minded Anti-Lecomptonites! Each section determined to indicate by their votes their own appreciation of the great "principles which underlie our institutions," and which constitute the creed of "our great National Party." The result of their deliberations is well-known. To Charles E. Stuart, the Free Soil, Nebraska, Anti-Lecompton, Lecompton echo of double somersetting Douglas, was committed the waning fortunes of the once invincible Democracy. As one of the *three* Senators who boldly withstood Federal vengeance in the late Lecompton demonstration, he *gained an unenviable notoriety.* For his course *then,* the people of his State, *Black Republicans* and all, honored and applauded him. They accepted his action in this as a pledge of his honesty, and no one attributed any other motives than those of principle. Time, however, has changed the scenes, and the drama now opens with the honorable Senator in a new character. He shows himself to be as apt in the play as the Shakspearian reader, who takes twenty-five parts alone. Here is the epilogue which this tragic Œnomaus of the political stage recites before going behind the scene *forever.* As reported by the *Free Press,* he said:

"Differences of opinion, it is true, had from "time to time existed among us as to the true "application of our principles, but all had *ceased "to exist with the causes which gave them birth. "We all know how to abide by the decision of "a majority.* Circumstances would, perhaps, "justify him in saying what he would not otherwise have deemed it necessary to say, that "*whoever supposed that he entertained any hostility towards the Administration as much mistook the speaker's position as that of the Convention.*" [Applause.]

These words need no comment. They show their speaker to be a worthy disciple of the great I Am of Illinois. Animated solely by Anti-Administration influence, hooted at and damned by Buchananites before his acceptance now applauded by the latter and given up as hopeless by the former. Not a Lecompton man in the State but will vote for him. Many *Antis* will not, while the whippers-in will bring back the wavering to "keep step to the music of the Union." Not a Buchanan paper in the State but hoists his name and utters his praises, while the honest thinkers will never support a man who is "four gentlemen at once"—Free Soiler, Nebraska, Anti Lecompton and Buchaneer.

Thus stands the issue: As in your own State, the glorious principles of Freedom against the "now-you-see-and-now-you-don't" double-dealing and trickery of corrupt politicians. The result is certain. Michigan will vindicate her Republicanism and purge herself of the last remaining Democratic Representative by 25,000 majority—mark the figures. Hand-in-hand with you in this contest, we bid you God-speed, applaud your zeal, which we may well imitate, and confidently look for your triumphant success. ALBERT.

Barret's Election and Immigration to Missouri.

[Correspondence of the Press and Tribune.]

ST. LOUIS, Sept. 6, 1858.

It would have been well for the business men and those interested in the growth and prosperity of St. Louis, especially those who voted for Mr. Barret, had they stopped for a moment and reflected upon the effect his election would have on these interests. It cannot be successfully denied that the election of Mr. Blair two years since to Congress, and the triumph of what may be termed the "Emancipation Ticket" in the municipal elections, together with the gallant canvass made by Mr. Rollins against Mr. Stewart in the contest for the Governorship, were the chief features which attracted so strongly the attention of the people of the Northern and Middle States to Missouri. These elections very naturally led to a discussion of the politics of this State, and the strongly apparent probabilities of its soon becoming classed with the Free States. Following close upon this came an examination into its resources, soil and climate, by the restless, moving masses of Northern men. The young farmer found here a soil and climate unsurpassed for the various branches of agriculture; the manufacturer learned of its inexhaustible mineral resources; and the mechanic, inspired by the enthusiasm of the farmer and the manufacturer, saw gradually but surely unfolding before him a rich and unoccupied field for the labor of his hands, and the ingenuity of his brains. In connection with the facts indicating a radical change in the political policy of the State, and a total abolition of slave labor, an immigration into Missouri commenced which has no parallel in its history. It gave a new life to the business of St. Louis, and a new animation to every branch of its industrial pursuits. It commenced the diffusion of a more healthy tone to agriculture and to manufactures all over the State; and through all this ran that sentiment in favor of Free Labor which appeared to govern the whole tide of immigration, and which makes the defeat of Mr. Blair, as the champion and advocate of these principles, and the election of Mr. Barret, the exponent of a directly opposite code, stand out in such bold relief, and excite so much surprise in the minds of the people all throughout the Northern States.

It was a matter of no surprise to me, then, when some of the most prominent and active business men of this city, and who have every facility for knowing the truth of what they say, assured me that the defeat of Mr. Blair, and the apparent reaction of the sentiments which he advocated, have acted as a serious check upon the tide of immigration into this State, which was sitting in from the Northern and Middle States. Men will act upon selfish motives. Farmers knew that if Missouri soon became a Free State, there was no place under heaven that offered better chances for speculation in farming lands than this. Their movements were governed by this idea quite as much as by any other. So too with Northern capitalists and mechanics. It was, in fact, the main-spring of their action. It was a matter of dollars and cents with them.

The citizens of St. Louis, and of the State at large, must not be surprised at the unfortunate results which will flow from the triumph of Mr. Barret, and the principles he advocates. I believe Mr. B. to be a gentleman and a man of ability in the highest sense of these terms; but all this cannot disguise the facts to which I have alluded, and which are rapidly becoming more apparent. Let me assure the citizens of St. Louis that if they do away with that progressive spirit which has tended to make Missouri a free State they will have done away with the strongest incentive they have ever held out to Northern immigration. Third Annual Fair of the St. Louis Agricultural and Mechanical Institute.

[Correspondence of the Press and Tribune].

ST. LOUIS, Sept. 6, 1858.

FIRST DAY.

The Third Annual Fair of this Association opened this morning on the grounds of the Association, about two miles northwest of the city, under the most favorable auspices. The vast amphitheatre was crowded to excess, and thousands were unable to obtain seats in this immense building. The number in attendance far exceeds that of either of the prior exhibitions of this Association. The order of exercises opened with a military display, in which the following St. Louis companies appeared:

St. Louis Grays, Capt. John Knapp; Missouri Guard, Capt. Geo. W. West; Washington Guard, Capt. Patrick Gorman; National Guard, Capt. John B. Gray; Emmet Guard, Capt. T. F. Smith; Washington Blues, Capt. J. Kelley; Union Rifles, Maj. J. C. Smith; Missouri Rifles, Capt. Schutz; Light Artillery Battalion, Col. H. Almstedt.

[illegible] nies being mostly full and under excellent drill. They are a credit and honor to St. Louis.

This was followed by an exhibition of

DRAFT HORSES.—Stallions, four years and over, of which there were ten entries. The first premium was awarded to "Policy," a large dapple iron-gray stallion, owned by Mr. St. Cin, of St. Louis. The second premium was awarded to "Gilbert," owned by E. H. Painter, of Owensboro', Ky. First premium, $50; second premium, medal.

STALLIONS.—Three years and under four, five entries. First premium awarded to "F. Webb," owned by C. Ellord, St. Louis. No second entry. Premium, $40.

STALLIONS, 2 years and under 3.—There were five entries. First premium awarded to "Dragon," owned by C. M. Frost, of St. Louis; second premium awarded to "Rompa," owned by W. Dorsey, of St. Louis. 1st prem., $30; 2d do., medal.

STALLIONS, 1 year and under 2.—About six entries. First premium awarded to "Samson," owned by Wm. Haydon, St. Charles, Mo.; second do. to "War Eagle," owned by J. Turpin, Green Co., Ill. 1st prem., $25; 2d do., medal.

STALLIONS, under 1 year.—Four or five entries. First premium to "Snap," owned by A. J. Hibler, St. Louis; 2d do., to "Tom," owned by S. Gardner, St. Louis.

GELDINGS, 3 years and over.—Three entries, and all first rate stock. First premium to W. H. Smith, St. Louis, and second to J. W. Fair, of Franklin Co., Mo.

MARES, 4 years and over.—Five entries. First premium awarded to Henry C. Sexton, of St. Louis, and second to J. Turpin, of Green Co., Ill.

MARES, 2 years and under 3.—Four entries. First premium awarded to "Lady Lawrence," belonging to A. R. Taylor, St. Louis; second, to "Sally," belonging to J. B. Allen, St. Charles.

MARES, 1 year and under 2.—One entry. Premium awarded to "Flora," belonging to Capt. T. B. Hudson, St. Louis.

MARES, under 1 year.—Two entries. First premium awarded to "Bell Morgan," belonging to E. Dorsey, of Jefferson Co., Ky.; second, to "Boxer," belonging to Mr. Hodgkiss, of St. Louis.

MATCHED HORSES.

HORSES, for carriage.—Seven splendid pairs entered. First premium awarded to J. & A. Arnot, of St. Louis; second do., to Wymore & Estes, of Clay Co., Mo.

MARES, for Carriage.—Four entries of fine spans. The first premium was awarded to L. Darsey, of Louisville, Ky., and the second to J. T. Thornton, of Independence, Mo.

HORSES, for buggy.—Seven entries of superior pairs. First premium awarded to Wymore & Estes, of Clay Co., Mo.; second do to J. J. Anderson, of St. Louis.

The above comprises about all the list of awards made to day on horses, or in fact, any other live stock. Premiums have been awarded in some of the other departments, of which I will advise you in my next. They are to a limited extent, however.

The show in agricultural implements is rather inferior to what it should be. So, too, in the Mechanical and Manufactured Articles' departments. In this respect, our friends of St. Louis will have to "knock under" to the stalwart mechanics of Chicago.

The numbers in attendance at the Fair to day may be safely estimated at from 25,000 to 30,000. It is, by all odds, the largest gathering of people ever held in St. Louis.

The "Atlantic Telegraph" celebration turned out to be a "dead failure." A portion of the principal business houses were closed, but nothing indicated to us any particular amount of rejoicing over this great event. AGRICOLA.

Partial Failure of the Wheat Crop in Russia.

The London correspondent of the New York *Commercial Advertiser,* under date of August 20th, communicates the following important information respecting the partial failure of the wheat crop in Russia. Similar intelligence has also been received through European papers of later date:

> Some recent advices from Russia appear to indicate that that country is not likely to be a serious competitor with the United States this year in the European markets for breadstuffs. The wheat crops in the important provinces which find their outlet at Odessa are said to have been fatally injured by mildew, the produce in some districts being insufficient for seed for next year. In Poland the result has been nearly as bad, and in the immediate neighborhood of St. Petersburg the fields are described as having been scorched by a drought such as has not been paralleled since 1831, the year rendered memorable by the cholera. Great fires are raging in the woods, and the peat lands were likewise burning to the depth, in some places, of five feet. A place called Ochta, near St. Petersburg, is said to be threatened with destruction from the approach of the flames. There are, however, some important alleviations of these disastrous circumstances. In the South, the districts bordering the Sea of Azoff are likely to yield a good supply of wheat and other grain, and in the North the country round Archangel is well spoken of. The same may be said also of various provinces in the interior which usually forward their produce to St. Petersburg. No actual famine, therefore, seems impending. All that can be inferred is that the exporting power of the country will for this season be greatly diminished, and that the incomes of the nobles will suffer in proportion.

The Canvass in Illinois—Total Mistake of Douglas.

[From the Cincinnati Gazette.]

Douglas did a fatal thing when he agreed to debate with Lincoln. His true policy was the old one of talking to his partisans behind his rival's back, when he could have gone on forever deceiving the people, who of course are not instructed in difficult points of politics. But Lincoln has the learning and ability to expose Douglas' dodges so that they can be understood. The Freeport debate was attended by fifteen thousand people, which shows that the masses do take the deepest interest in *bona fide* debate, much as they despise common stump speaking. In presence of all that crowd the speakers encountered each other, and the stenographers set down their words, which the Chicago papers send out by thousands, and other papers reproduce by tens of thousands.

Douglas, in this canvass, has shown his character in all its deformity. We assert that it is the very first time he has ever defined Squatter Sovereignty. *He* says he has done so a hundred times in his stump speeches of 1855, '56 and '57; but he is a man capable of any denial or affirmation, and hitherto there have been no short-hand writers on his track. He never did define his position before, and he has to take refuge now, when he is forced to the wall by his opponent, in a paltry equivocation; and also to contradict himself, as we proceed to show.

The clear assertion of the doctrine is that the inhabitants of a U. S. Terrritory have a legal right to pass what laws they please; and consequently that they could exclude or introduce slavery at pleasure. That is to say, such was the right of the residents of Ohio from 1788, when it was settled, to 1802, when it became a State. For fourteen years then—the territorial interval—Ohio people could have done so, if it had not been for the prohibition of the Ordinance. The people of Kansas Territory, where there is no Ordinance, can do so.

This clear assertion Douglas makes at Freeport, as he made it at Ottawa. He says the people of a United States Territory may legislate as they please. But he had at Freeport, in the same speech, just asserted the contrary, and, as his adversary was there, and the people in mass assembled, to know what he did mean by squatter sovereignty, he had to face the music. He says, I believe in squatter sovereignty, which is the Cass-Nicholson doctrine about slavery in the Territories. It follows that the Territory can pass laws and stop the slaveholder as he crosses the border with his slaves. He can be made criminal for introducing, or attempting to introduce slaves, and fined and imprisoned. The absolute right, the sovereignty, has no other limit than the will of the legislator. Is that what Douglas means? Not at all; he means something else quite the contrary. That was a silly evasion he held at Freeport for the first time in his equivocal and abominable history, that slaveholders may come into Territories with thousands of slaves, and cannot be treated otherwise than as having equal rights; but that the Territorial Legislature may neglect to pass police laws for slave protection, without which it cannot exist! So then, that paradox Squatter Sovereignty, Mr. Truepenny, dwindled to being bound to receive a slave population, but not to give them a police. We ask the South—the outspoken South—to look at this subterfuge. We ask them to indorse Hammond, that the Kansas-Nebraska bill was a corrupt delusion, and its author a humbug. We recall to our readers the loathing of Toombs in the Senate for Douglas, when he roared out his scorn and contempt for him without much circumlocution, as a traitor, a hypocrite, a coward; and thundered the separation of the South from such allies, by saying: "Two thousand millions of property needs no auxiliaries to defend it; we want no mercenaries. 'By these,' as the Barons said to John, clutching their swords, 'we got them (their lands), and with these we will defend them.' As for the Senator from Illinois, I tell him, *non tali auxilio nec defensoribus istis.*"

At Freeport, Douglas cuts as pitiful a figure as in the Senate on the memorable night he was impaled just after the Ides of March. Observe the shifts of a little mind! He affects respect for the United States Supreme Court, but shows that he would sacrifice that, and the Constitution with it, in a moment, to his ambition. To what uses does he bring it down in this very debate? He destroys the Dred Scott decision, which denies any power over slavery to the people of a Territory, by saying that it is unimportant—it settles abstractions. The people of a Territory can quietly nullify its authority. They can refuse to give slaveholders a police! But the Supreme Court say that a Georgian shall carry his slaves into Kansas in spite of the unanimous will of the inhabitants; and that he shall have the whole judicial and executive, backed by the military power of the Union, to protect him entering and abiding.

We ask the South to consider this fresh and faithless conduct of a man who reported the Kansas Nebraska Bill for the purpose of cheating the North into his support, and thought he had purchased the vote of the South. He will be, he ought to be, defeated for the Senate; but if elected, he can never have the confidence of either section, and his career is ended.

It was a fatal error for him to debate before the people of Illinois, and by telegraph and printing press, to be exposed at the same hour, north and south of Mason and Dixon's line. From the beginning, we always knew the Atchison-Douglas coalition was to destroy all the parties to it, and the work is done.

We call attention to another point. It is wonderful that Douglas got off before so many people with the falsehood that he had always defined Squatter Sovereignty as he stated. The recorded truth of the matter is that only on one occasion was he ever put to the question so narrowly that he could not escape. There is a solitary instance in the Senate in 1856, when he was tested by Trumbull and evaded answering, by a hair. The new Senator demanded a definition of Squatter Sovereignty. It is the right of people in Territories to take care of themselves. Do you mean to legislate on slavery *when they form a Constitution* they may admit or exclude it. But what is the power of a Territorial Legislature during that form of government, and before the people want a constitution. *That is a judicial question.* And that dodge by Douglas was not noticed by Southern Senators, nor defeated as it should have been, by this further question: But what is your opinion, Mr. Douglas; you have made such noise and havoc with parties by that Squatter Sovereignty doctrine, that I require you to answer? That important question was not asked, unfortunately for the country. Douglas, in the Senate, would have been cloven to the floor, if he had answered either way. He could only have said, I have no opinion. Now he has the audacity to say, I have stated my opinion a hundred times. He never did it before, and he will hear from his Southern colleagues and the Southern press, such warnings as to remind him that man is mortal, especially Senators.

"Hark from the tombs;" that dirge which was sung at his obsequies in the Senate, will be heard solemnly again, as the pall settles on his remains in Illinois, with Lincoln as his successor.

The Cause in Egypt.

The following is an extract from a business letter from an intelligent friend in Southern Illinois:

For your satisfaction permit me to say that the controversy between Lincoln and Douglas is producing its legitimate effects in this part of the State. Gentlemen of the American party, who stood wavering and undetermined prior to the commencement of the campaign, are now open and decided in their opposition. Others who have always been warm supporters of Douglas, are wincing under the accumulation of facts presented in the speeches of Trumbull and Lincoln. And he will find, after "trotting" the latter "down to Egypt," that he cannot enshroud his policy in such impenetrable darkness but that more than the plagues of Pharaoh will overtake him.

You are probably aware of the result of the Democratic Convention for the nomination of a candidate for Congress in this (the 8th) District. Maj. John D. Wood, of Washington Co., and Phil. Fouke of St. Clair, were the two most prominent candidates—standing for many ballotings 26 to 26. Bob Smith secured only the votes of his own county delegation, seven in number. Fouke succeeded. He is a weak brother, and if the proper man can be brought out from the opposition, he can be defeated. Who that man may be is yet undetermined. John Baker, of Belleville, is strongly spoken of.

Much dissatisfaction prevails among the Douglas Democracy at the success of Fouke.

Respectfully, UPPER EGYPT.

Federal Law in Utah.

A Salt Lake Lake City correspondent of an eastern paper gives the particulars of an interesting *habeas corpus* case that had been tried before Judge Eckles, instituted on behalf of an Englishman, named Polydore, to recover the custody of his daughter, who had been carried to Great Salt Lake City by her mother in 1855, and was then in the family of a Mormon Elder. The father was successful in his suit, and the girl was delivered up to the United States Marshal, to be returned to her father. The father had encountered great difficulty in regaining possession of his child, the mother opposing his claim in every possible way, and having changed her name and secreted her for a long time in order to baffle pursuit.

This is an important step toward the establishment of federal law in Utah. With an impartial tribunal to which disaffected and oppressed Mormons can at all times appeal, and a military force sufficient to overawe all opposition to its decisions, the priestly hierarchy can never again lift its hydra head.

Horticulturist for September.

Eleven Septembers have come and gone, and the twelfth is some days on the calendar, since this valuable periodical was first laid upon our table, then fresh from the vigorous pen of its founder. But twelve short years have brought great changes in the horticultural world, mainly through the instrumentality of this monthly visitor. Downing quietly reposes on the banks of his favorite Hudson, but the spirit of inquiry which his genius called into activity will find no repose until the homes of the farmer, the villager and the citizen shall be beautiful and made attractive to the household, when the word home shall convey the idea of rural beauty and unostentatious comfort. Go on, thou monthly visitant, in thy mission of love, furnishing hints for the embellishing and beautifying of the homes of all, and especially of the West.

The time for tree planting is again near at hand, when no one who intends to adorn his home can do without this valuable work.

To be had of Messrs. S. C. Griggs & Co., No. 39 and 41 Lake street, Chicago. RURAL.

How Judge Douglas Came to be called the "Little Giant."

This famous sobriquet originated with and was first applied to Stephen A. Douglas by Joe Smith, the Mormon Prophet. It was elicited during an exciting discussion in the Illinois Legislature upon the Mormon difficulties, in which Douglas cut a conspicuous figure in defence of the Saints, when their great leader, in giving vent to his unbounded admiration for Douglas, made use of the expression.—*Southern Illinoisan.*

Another Accident to Col. Harris.

On Tuesday evening last, our citizens were greatly alarmed at the report that Col. Harris had, by accident, taken a poisonous potion which would likely terminate his life. We are happy to state, however, that all fears were soon dispelled upon his speedy recovery.

Col. Harris has, for the past six or eight weeks, suffered much from a rheumatic affection of the hip and the consequent general debility attending it, for which he had been using remedies both externally and internally. One of the antidotes recommended by his physician is a preparation of the tincture of *arnica,* a phial of which he took up by mistake and administered to himself a teaspoonful. In an instant he was aware of the mishap. He called for and drank down about a quart of warm water, which immediately disgorged the contents of his stomach and cleansed his system from the effects of the poison. He has entirely recovered from its effects.—*Menard Index.*

Fugitive Slaves.

Four stalwart men, armed with guns, captured two fugitive slaves somewhere up on Bear Creek, in this county, and brought them to this city last Saturday and lodged them in jail, to await an examination.—*Quincy Herald.*

Volume 8 Now Ready,
COL. BENTON'S ABRIDGMENT
OF THE
DEBATES OF CONGRESS
IT EMBRACES THE PERIOD OF JOHN Quincy Adams's Administration, and consequently contains the celebrated debate on the appointment of representatives to the proposed Diplomatic Congress at Panama. In that debate the great question of International law, and of the proper relations and conditions of this country with respect to other States of this Continent, that are again arising in the proposed abrogation of the Clayton-Bulwer treaty, and in kindred subjects, were discussed by some of the ablest minds that this country has produced. Among the debaters on this occasion may be noted such names as Hayne, Robbins of Rhode Island, Woodbury, White of Tennessee, Johnston of Louisiana, Van Buren, Holmes, Randolph. In fact, the discussion was one of the most able that has occurred in our annals. The speech of Col. Benton on this occasion was pronounced by Mr. Randolph, "the ablest that had been delivered in Congress since John Marshall's speech in the Jonathan Robbins case," in 1800.
Price per vol. $3 00 in Cloth; $3 50 Law Sheep; $4 50 half Calf.
The Abridgement of the Debates will be completed in 15 vols., 750 pages each, comprising what is now contained in over one hundred volumes. A complete accurate and convenient Index is appended to each volume. Subscription received by the publishers.

DR. MANN'S
AGUE BALSAM,
UNRIVALLED IN THE
HISTORY OF MEDICINE.
WHY? BECAUSE SINCE THE FIRST settlements of the rich prairies and fertile valleys of the West, it has been the great study of all Physicians to produce a perfect cure for ague, fever, and all billious diseases, so thoroughly prevalent and so fearfully fatal in their results. The mineral and vegetable kingdoms have heretofore been ransacked in vain except for remedies only partially successful, but this is entirely remedied and will be ever fail. Reader, we defy you to find a case so obstinate but Mann's Ague Balsam will not cure; we do not hesitate to say that the remedy so long sought has at length been found that will never fail. See the following:
Oberlin, Ohio, June 1st, 1858.
Messrs. S. K. Mann & Co.—Gents: Having had occasion to use some of your Ague Balsam in my family, I find it the most prompt and efficient remedial agent for the certain cure of ague ever used, and as a strengthening tonic I think it has no equal. Your Ob't Serv't, SAM'L HENDRY.
Olney, Ill., September 20, 1857.
Messrs. S. K. Mann & Co.—Gents: Your Ague Balsam is the only remedy that seems to meet the wants of the people of this locality. We have upon our shelves, all the popular remedies of the day for the cure of ague and fever, but Dr. Mann's Balsam sells in preference to all others, from the simple fact that it cures. It is destined to excel all other remedies ever offered. Truly Yours, G. W. HAYNE.
Dr. Mann & Co., Galion, Ohio—Gents: Your Ague Balsam is the people's own remedy, in this part of the country, for the cure of ague and fever. We have never known it to fall in any case when properly used. It is looked upon as a perfect antidote to malarious diseases.
Very Truly Yours, REED & PETTIJOHN.
Cairo, Ill., May 15th, 1858.
Seymour, Ind., April 30, 1858.
Messrs. S. K. Mann & Co., Galion, Ohio—Gentlemen: I would say for the benefit of all concerned, that I have a little daughter, about six years of age, that has had the chills ever since last fall; we could do nothing with her till we received your Balsam. We commenced giving it according to directions and are happy to state that she has not had a chill since she commenced taking it. I shall use my exertions in the bounds of my influence to give your Balsam a circulation.
Respectfully Yours, N. P. EDWARDS.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.
DR. CHRISTIE'S AGUE BALSAM is the best remedy for the permanent cure of Chills and Fever, Fever and Ague, Dumb Ague, and all malarious diseases incident to the climate.
DR. CHRISTIE'S AGUE BALSAM has never been known to fail where the directions have been strictly followed.
DR. CHRISTIE'S AGUE BALSAM is a PURELY VEGETABLE COMPOUND,
Containing neither Arsenic, Quinine, Strychnine or anything of a poisonous or deleterious nature.
DR. CHRISTIE'S AGUE BALSAM has had for years the largest sales of any remedy for a specific disease ever offered to the public.
DR. CHRISTIE'S AGUE BALSAM has attained its immense popularity through its own merits, its great power in curing disease, its perfect harmlessness and freedom from hurtful ingredients. It can be taken by the helpless infant, vigorous youth and feeble age, ever without injury, and always with benefit.
READ WHAT AGENTS SAY.
Dr. H. Simmes, of Mattoon, Ill., under date of Aug. 24, 1858, says:—"Send me another lot of Christie's Ague Balsam as I have but two bottles in store, and the demand is on the increase. I am insuring every bottle, as yet none have been returned."
J. W. Plummer, Druggist, Vinton, Iowa, under date of Aug. 24th, 1857 writes:—"Send me half gross of Christie's Ague Balsam. I have but three bottles on hand and it is selling rapidly. It is the best remedy for Ague I have ever sold."
Mr. A. N. Blackledge, of Metamora, Ind., writes us June 15, 1857, and says it at the Balsam has cured in every case where taken. He further says that one case came from the Wabash, Mr. S. W. Swigert, who had the Ague eighteen or twenty months. He insured three bottles to cure him. He took only one bottle and the result was a permanent cure. He had paid about $60 doctor bills.
AFFLICTED FOUR YEARS.
Delphos, O., Jan. 13, 1858.
Messrs. Hunt & Gardner—Gents:—I wish to make known to the public an article from which I have derived more benefit than from all other medicines which I have ever used. I have been suffering from Fever and Ague and its effects for the last five years, during which time I have scarcely enjoyed a day of good health, out I purchased a bottle of Dr. Christie's Ague Balsam. In a few days I found myself clear of ague and rapidly recovering in health. I have not felt a symptom since I commenced taking it, (about three months,) although exposed to cold weather. To my friends and the public generally, suffering from this disease in any form, I would say, procure a bottle and save health, constitution, and money.
Yours, J. B. GROSCOST.
Above are only a few testimonials in favor of CHRISTIE'S AGUE BALSAM, but space forbids adding more. Price $1 per bottle, or $5 for six bottles.

THE LIVER INVIGORATOR
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
IS ONE OF THE BEST PURGATIVE and LIVER MEDICINES now before the public.
LIVER INVIGORATOR.
These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease—effecting a radical cure.
Bilious attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents nightmare.
Only one dose taken at night, loosens the bowels gently, and cures costiveness.
One dose taken after each meal will cure Dyspepsia.
One dose of two teaspoonfuls will always relieve Sick Headache.
Only one dose immediately relieves Colic, while
One dose often repeated is a sure cure for Cholera Morbus, and a preventative of Cholera.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures Chronic Diarrhoea in its worst forms, while Summer and Bowel Complaints yield almost to the first dose.
A few bottles will cure Dropsy by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE ONE DOLLAR PER BOTTLE.
Dr. SANFORD, Proprietor, No. 345 Broadway, New York. Retailed by all Druggists. Sold, also, by BOLLES, SMITH & CO. and FAHNESTOCK & DAVIS, 118 Randolph street.

FEVER AND AGUE
CURED WITHOUT ARSENIC OR QUININE.
DR. LEED'S QUININE SUBSTITUTE, or NERVE TONIC is a positive cure for
Chills and Fever,
And all diseases arising from derangement of the Nervous System, and very successful in preventing
YELLOW, PANAMA AND CHAGRES FEVERS.
The recipe was discovered by a regularly graduated physician, and is, therefore, entitled to the same confidence as any other physician's prescription. A single trial will prove its efficacy. One bottle is ordinarily sufficient for a case of Fever and Ague which will effect a cure. All that is asked is a fair trial. All who have used it speak loudly in its favor. Read the Circular. J. H. HAZARD, Sole Proprietor, No. 121 Maiden Lane, New York.

RITTER'S PATENT TRUSSES.—THE [illegible]

Special Notices.

Dr. Christie's Ague Balsam.—The excessive heat of the past summer has left almost everybody in a debilitated condition, and therefore liable to bilious diseases. The fever and ague is now quite prevalent, and we consider it our duty to call the attention of the public to one of the greatest remedies of the age for all Bilious Complaints, such as Fever and Ague, Chills and Fever, Dumb Ague, &c. Unlike nearly all similar preparations, it is free from poisonous substances, and it can be administered to all ages and classes without injurious results. Use no other Ague Balsam except CHRISTIE'S, as there are several articles by that name which are totally unlike Dr. Christie's, the original inventor. See Advertisement.

BALLES, SMITH & CO., 14 South Water street, Western Agents, to whom all orders should be addressed. For sale by druggists generally. se7

Sawyer's Fluid Extract of Bark, an infallible remedy for the Fever and Ague, and the various forms of Billious Diseases, Intermittent, Remittent, Chill Fever and Dumb Ague, having their origin in malaria of very fertile and marshy districts, prepared by Dr. S. S. Sawyer, Druggist and Chemist, and sold by Sawyer, Paine & Co., No. 16 Lake street, Chicago.

This remedy is prepared entirely from vegetable substances, and contains no mercury, arsenic, or anything that can prove injurious to the system. Its effects are those of a deobstruent and tonic, well adapted to restore the healthy action of the Liver and Stomach, whose functions are so generally impaired in this class of diseases.

Quinine and other tonics serve only in many cases to break the chills, but do not remove the diseases of the liver and other organs implicated, on which the chill and fever depend; hence the usefulness of the "Fluid Extract of Bark," (particularly in regions where Physicians cannot be readily consulted), which contains all the qualities suited to the indications of these maladies.

Hundreds of testimonials in regard to the efficacy of the medicine from persons of respectability, have been given to the proprietor—but he does not make use of them as he prefers to have the medicine introduce itself generally by its merits.

Fever and Ague.—This trying and prevailing disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and rendering him mentally and physically useless, can be defeated and driven from the body by the use of Dr. J. HOSTETTER'S BITTERS. The great success it has met with, and the beneficent results following its use, have established it as a permanent "institution." We would advise our readers to procure this valuable specific, and if an absent friend is afflicted with the fever and ague, or any other nervous disease, to hasten and procure this much favored and greatly desired article. A trial is all that is needed to prove its many excellent qualities.

For sale by Druggists and dealers generally, everywhere. au31-d2w

Dyspepsia and Fits.—Dr. O. Phillips BROWN, The Great Curer of Consumption, was for several years so sadly afflicted with Dyspepsia that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young clairvoyant girl. This prescription, given him by a mere child, while in a trance, has cured everybody who has taken it—never having failed once. It is equally as safe in cases of Fits as Dyspepsia. The ingredients may be found in any Drug Store. I will send this prescription to any person on the receipt of one stamp to pay postage. Address DR. O. PHILLIPS BROWN, No. 21 Grand-st., Jersey City, N. J.

Hostetter's Bitters.—For sale by Fahnestock & DAVIS, 118 Randolph street. jal4

Charles' London Cordial Gin.—The Original and only London Gin Imported. This Gin, distilled in London from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the Vegetable Kingdom, rendering it in the opinion of the most eminent medical men, the purest and safest stimulant or diuretic drink in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended as a medicine, it is recommended by physicians generally in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, the Kidneys and the Bowels, Nervous Debility, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to settlers in the Southern and Western States, as well as for travellers exposed to change of water and air.

For sale in quarts at seventy-five cents, and pints thirty-eight cents, by all Druggists, Grocers, Fruiterers, and Country Merchants. Beware of imitations. Buy only CHARLES'. NONE OTHER IS IMPORTED.

May be had in Chicago, Ill., of PENTON, ROBINSON & SMITH, No. 15 South Water street; HAVENS, TYRRELL & CO., No. 67 South Water street.

These have effectually relieved me in repeated instances of late, and I cheerfully and conscientiously recommend them to others who are similarly affected." This sovereign remedy is for sale by J. H. Personal and Political.

Davis, the U. S. Marshal of Michigan, was decapitated for the same cause as that which brought Col. Davidson of this State to the block; and as if that were not enough, the Douglas men, for whom he had sacrificed himself, have nominated him for Congress in a district where the Republicans have four thousand majority. He might well exclaim, "Save me from my friends!"

—An Illinois correspondent of the Boston *Journal* revives the fact that Lincoln stood next to Dayton as the Republican candidate for Vice President in the Philadelphia Convention in 1856. We see, by consulting our files, that on the informal ballot, Lincoln received 110 and Dayton 259.

—The New Orleans *Delta*—the advocate *par eminence* of a revival of the African slave-trade—warmly resents the assaults of the Washington *Union* upon Mr. Douglas, *its* candidate for U. S. Senator.

—It is said that Hon. John H. Wheeler, of North Carolina, the Minister to Nicaragua who recognized the Walker Government, will be tendered the Mission to Paraguay.

—A short time ago the appointment of Dr. Bradford, of New-York, as the American Consul to Rome, was announced in the Washington *Star*. Dr. Bradford accepted the appointment at the time, but, owing to circumstances which have since transpired, he has been compelled to resign, and the President has filled the vacancy by appointing H. Glentworth, of N. Y.

—The East Maine Conference of the Methodist Church is just now subject to unmeasured abuse by the Buchanan press, their offence being the adoption of the following resolution:

"As the spirit of the Constitution of these United States, and the purposes of its framers was to establish *liberty*, it is our constitutional privilege and duty to resist the introduction of of new slave territory into the Union."

—The Rev. Mr. Kalloch resumed his pastoral duties at Tremont Temple, Boston, on Sunday last. He preached to an overflowing house from the following text:

"Therefore I came unto you without gainsaying, as soon as I was sent for: I ask, therefore, for what intent ye have sent for me?"—Acts 10: 29.

—Lieut. John Maffit, commander of the U. S. brig Dolphin, which took the slaver Echo, is the son of the well known Methodist clergyman of that name.

—Queen Victoria's recent journey from Antwerp to Potsdam, through Holland, Belgium and Prussia was a succession of triumphal ovations. The Emperor of the French is erecting an obelisk in her honor to stand side by side with Napoleon's statue.

—An elopement took place from Falmouth, Ky., which resulted to the advantage of the bridegroom, in that he not only got a young and pretty wife, but a fortune of $250,000 in the bargain.

—A fat candidate for office in Alabama, weighing three hundred and seventy-five pounds, published a card lately, in which, through a slight improvement of the compositor, he asked the people to *fry* him!

—The American who fought a duel at Baden with the Marquis de Gallifet—one of the French lieutenants who attempted to kill Pene, the Paris editor—was Charles Astor Bristed, of New-York, and the duel grew out of an allusion to the Pene affair in one of his letters to Porter's *Spirit of the Times*. Nobody was hurt.

Kansas Gold Fever.

[Correspondence of the Missouri Democrat.]
KANSAS CITY, Mo., Sept. 3, 1858.

The excitement caused by the discovery of the Pike's Peak gold mines is still unabated, indeed, it is vastly on the increase. Every man has gold on his tongue, if none in his pocket. The first question in the morning, after coming down town, is, "What's the news from the gold diggings?" Old men, young men, women and children, may be seen in groups, discussing the merits and demerits of the wondrous discoveries of gold "almost in our midst." If there is not an abatement of this feeling before spring, our city will be depopulated. Those who cannot go this fall, express a determination to go next spring. Some are going to mine, some to trade, some to merchandise, some to farm, and doubtless some to steal, and very likely some to come back, while some go to remain. The specimens brought in (of which more anon) only aggravate the feeling; the sight of the gold just from its hiding-place "is confirmation strong as proofs of holy writ." To the doubting are pointed these specimens of as pure gold as any of which California could ever boast; and, truly, who could doubt such evidence?

The latest advices from the diggings (received yesterday) confirm all that has heretofore been said in regard to their richness; and according to them the discoveries of gold-bearing dirt extends several hundred miles south. A gentleman arrived here yesterday from the head waters of the Arkansas, just south of Pike's Peak, and reports those mining in that region as making good wages, though without any tools at all except their axes and pans.

The character of the gold from this region partakes of the quality of both dry and river diggings, some being scaly gold, whilst a part is the round, heavy gold found in dry diggings, and containing impurities, such as quartz rock, &c. It is now pretty well established that gold abounds in all that country between the thirty-eighth and fortieth parallels of latitude, and twenty-seventh and thirty-first meridians of longitude, and in a quantity sufficient to pay good wages. There has been on exhibition in this place several small quantities of gold direct from the mines, and, as a miner of five years' experience, I feel safe in pronouncing it not only the pure stuff, but of more than ordinary fineness. Part of this is of the scaly kind, common to running streams, and part is evidently from gulch or ravine diggings, whilst some of it is of the character usually found in surface diggings.

The Law of 1819 in Relation to Captured Slaves.

[From the National Intelligencer, Sept. 2d.]

The capture of the Echo, and the question raised as to the disposition that, according to the terms of the law of 1819, should be made of the unhappy Africans found on board of her, remind us of the fact that certain portions of that law had their origin in the experienced necessity of making some provision for the return to Africa of such negroes as should be either rescued by American cruisers on the high seas or should be discovered to have been illegally imported into the United States. For, notwithstanding the severity of our statutes against the slave trade, negroes were still surreptitiously introduced into some of the Southern States as late as the year 1819. By a law of the State of Georgia, passed on the 19th of December, 1817, it was ordained that all negroes thus imported, in contravention of the laws of the United States, should be offered at public sale, and the proceeds thereof be paid into the Treasury of the State. By the third section, however, of this law it was provided that, "if previous to any sale of any such (surreptitiously imported) persons of color, the society for colonizing free persons of color will undertake to transport them to Africa, or any other foreign place which they may procure as a colony for free persons of color, at the sole expense of said society, and shall likewise pay to his Excellency the Governor of the State all expenses incurred by the State since they have been captured and condemned, his Excellency the Governor is authorized and requested to aid in promoting the benevolent views of said society in such manner as he may deem expedient."

The American Colonization Society, to which this section of the Georgia law refers, had then been but recently established. In the earlier part of the year 1819, the Hon. Wm. H. Crawford, of Georgia, at that time Secretary of the Treasury under Mr. Monroe, and, we may add, one of the Vice Presidents of the Colonization Society, transmitted to its Board of Managers a public advertisement, offering for sale, under the law of Georgia, a number of negroes introduced into the State in violation of the law of the Union prohibiting the slave-trade, though at a date anterior to the passage by Congress of the law of 1819. Mr. Crawford at the same time invoked the attention of the society to that provision of the law of Georgia which placed the negroes thus fraudulently imported at the disposition of the Colonization Society. And in pursuance of his suggestion an agent was appointed to make the proper arrangements with the Governor of Georgia for the transportation of these negroes to their native country, to which, in due time, they were actually returned under the auspices of the Colonization Society, and where they had laid the foundations of one of the most flourishing settlements ever planted on the Liberian coast.

Imports at New York.

The *Courier and Enquirer* of the 7th says:

The imports for the month just closed are nearly equal to those of August, 1857, notwithstanding the lower valuation, but yet, for eight months the decrease is fully forty per cent. from last year. Both this August and last, the amount withdrawn from warehouse exceeds the amount warehoused. As a matter of course, the cash receipts at the Custom House are better, and, for eight months, amount to about 60 per cent. of the receipts in the eight months of 1857, with a fair prospect that this disparity will be diminished, though not in any considerable degree.

Mr. Sumner's Health—What is a Moxa?

The Paris correspondent of the New York *Times*, writing on the 13th of August, says:

"Mr. Sumner left town yesterday for a season at Aix-les-Bains, in Savoy. The cauterization of the spine has done him good, and after a season at Aix he will return to Paris again and to the moxas. Perhaps your readers do not know the character of this remedy. A moxa is thus made and applied: It is composed ordinarily of carded cotton, rolled into a cone, the base of which may have an inch diameter, and slightly pressed by and contained in a piece of muslin or other cloth. The cotton is saturated in some alcoholized substance, such as camphor or nitre. It is then placed on the skin of the patient, over the diseased part, the cotton is lighted, and as the flame reaches the bottom of the cone, it is blown into the skin by means of a blow-pipe. The skin around is protected by a wet cloth. The greatest pain is experienced when the flame first reaches the skin. Soon the cuticle begins to crack; the skin contracts into furrows, turns brown, then fries, and finishes by becoming black and carbonized, like other burnt substances. These moxas must be repeated often, and over the whole course of the spine, if the disease be there, in order to produce a permanent effect. They are thus called from a Chinese and Japanese tissue like cotton, the *Artemisia Chinensia*, which they call in those countries Moxa, for it is from those countries that the practice of the Moxa is derived, and it is as old as history. It is, in fact, so old a treatment, even in modern times and modern nations, that it has almost gone out of use; yet it is sometimes resorted to in cases which have resisted all the other counter-irritants, and not unfrequently with marked benefit. The practice of burning the skin, or other diseased parts, which had gone somewhat out of use a few years ago, is now fast coming into use again in Paris. Scarcely a ward of the Paris hospitals is now without its portable furnace of charcoal and red-hot irons. They are applied as well in medicine as in surgery, for a practice in chronic, illy-defined affections. The practice now in vogue is that of stripping the patient naked, and drawing an iron, heated to a white heat, quickly over the body, parching the cuticle brown in its track, and giving to the body the appearance of a striped zebra. If the iron is white, and the operation is practiced cleverly, the patient does not suffer from it enough to force a cry, but if the iron is only red, the pain is, of course, very great."

Death from Hydrophobia.

Mr. Edward James, a young Englishman, employed in the reaper factory of Geo. Esterly, at Whitewater, Wis., died of hydrophobia on Sunday last. About three weeks previously he had been bitten by a pointer slut that was mad. The *Register* says;

On Saturday night he was seized with a violent pain in the arm, followed soon after by unmistakable symptoms of hydrophobia. During the first few spasms he is said to have barked like a dog. His spasms were frequent and grew more and more severe up to the time of his death, and those who saw him during his sickness say his sufferings were horrible. During his lucid intervals he begged of his friends to kill him and put him out of misery. When his paroxysms visited him it required the united energies of several men to keep him from doing violence to himself or others. He snapped at one of the watchers, making an indentation sufficient to leave the marks of his teeth, but not to break the skin. The unfortunate man was only twenty-two years old, and a wife and one child mourn his untimely death.

We understand that a little daughter of Mr. Edward Spears was bitten by one of the puppies of the slut, and that she is now under the care of a physician.

LIGHT!! MORE LIGHT!!
EVERY FAMILY THEIR OWN GAS MAKER.
NO CHEMICAL HUMBUG.
THE UNDERSIGNED HAVE MADE EXtensive arrangements for supplying any store, public house or private dwelling in the city or suburbs with
J. W. Smith's New Patent Gas Generator.
By means of this exceedingly simple, cheap and convenient arrangement, any family can have, at a cost not to exceed one-fourth the cost of the city gas, a gas far more brilliant and white, and not at all offensive. This is one of the chemical humbugs which the country has been flooded by, ... a simple arrangement (lately patented) made to attach to any gas-pipe, to be used with ordinary gas burners.
THINGS YOU WILL AVOID BY USING THIS GAS.
1st—Three-fourths of all expense.
2d—All offensive odor.
3d—Uncertain and poor light.
4th—The annoyance of defective meters, monthly bills, advance deposits, &c.
The following are among the many certificates we have from those using this Gas:
Washington City, D. C., July 1st, 1858.
This may certify that we have been using John W. Smith's Portable Gas Generator, to light our store, which has given from 5 to 6 feet per hour to each burner, making the gas every night as we want it. We consider it the very best invention ... E. TUCKER & BRO., Pennsylvania avenue.

TO ALL WHOM IT MAY CONCERN.—The undersigned are now using in their store, 74 State street, one of J. W. Smith's Portable Gas Generators, and are well satisfied from experiments carefully made by us with this apparatus that the cost of gas made by this apparatus will not exceed one-fourth the expense of the city gas for an equal number of burners, being as good if not better ... COMMERCIAL.

Commercial and Money Matters.

Thursday Evening, September 9.

COMMERCIAL.—Below is given a comparative view of the exports of Breadstuffs for twelve years, from the United States to Great Britain and Ireland; and also a statement of exports for four years, to the Continent. A list of a number of articles in stock at New York City, on 1st September, is also given; along with comparative receipts of produce at New Orleans, for four years past. The statistics in the several articles will repay perusal.

There was some excitement among buyers and sellers of grain on 'Change this forenoon. The market opened dull and languid; private advices of a decline at New York soon sent prices tumbling—the difference in figures for some kinds of wheat, as per our quotations, is 6c below the lowest rates of yesterday. Corn also came down, but some holders left the market and would not accept declining rates.

Some Red Winter Wheat, No. 1, in store, sold last night at $1.09; to-day sales were made at $1.07, $1.06 $1.05; R. W. No. 2 also went down from 98@95c. Spring No. 2, new receipts, in store, opened dull at 75c, and soon dropped through all the intermediate figures to 70c, as per our quotations—the tendency being still farther downward to a point not yet discovered, and variously conjectured about. "Stump-tailed" Spring, found buyers at 70c in store, both forenoon and afternoon, while rejected held on at 58c. The total sales of all kinds of Wheat, are, for the day, about 60,000 bushels.

Corn did not make such a long slide as wheat; but the downward movement seemed inevitable, although several extensive holders would not accept the declining rates. No. 1 in store brought 55@56c, a difference of 2@3c below yesterday's figures, which were 57@58c. Total sales of all kinds, a little over 20,000 bushels.

Oats were inactive; and not much doing in barley.

Flour was quite dull; we can report but few sales, and these only of Spring. Winter held firmly at higher figures than some inquirers cared to give.

There was a little done in highwines at our quotations.

Provisions were very quiet; and freights were quite dull.

P. S.—We meant to say in our notice of the Marshall Co. corn, that it would grade No. 1 with a star. [No. 1*].

Chicago Wholesale Market.

THURSDAY EVENING, Sept. 9.

FREIGHTS—Are dull. The only charters we hear of are—To Oswego, schr J Y Avery, corn at 7½c. To Buffalo, schr Courtright, wheat 4½c; schr Evelyn Bates, corn 3½c. and the prop Wilson, wheat at 4c—in the latter case customer to be paid for as corn.

Spring No 2, fresh receipts, 3,000 bus at 75c; 1,000 bus, 1,200 bus, 1,000 bus at 74c; 2,000 bus, 1,50 bus, 1 car load at 73c; 5,000 bus at 72c; 1,000 bus at 71c—all in store. The Salvor made her appearance in our river yesterday morning. Notwithstanding her short absence we hardly knew her so changed is her appearance by the addition of a sort of upper deck, also a mast and other improvements. On her way up she pulled off the schr Lookout, ashore at Long Point. The Salvor never was in better condition for active service and we trust will prove valuable to the fleets scattered by the autumn gales in this quarter.

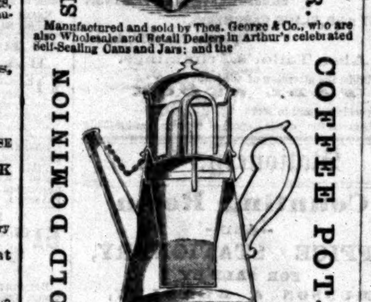
Manufactured and sold by Thos. George & Co., who are also Wholesale and Retail Dealers in Arthur's celebrated Self-Sealing Cans and Jars; and the OLD DOMINION COFFEE POT.



Of which the Springfield (Mass.) "Republican" truly says: "Few of the late inventions of the day can claim a success like this already celebrated article of household economy. It is constructed in a neat, simple, thorough scientific manner and its advantages are that it makes deliciously fragrant coffee, even if used by unskillful hands, and retains all the aroma of the berry, that usually escapes in steam when cooked in the old-fashioned way. The draught which it makes is nectar compared with that of old-time coffee pots."
